Nicole Geneau  
East Durham Wind Inc.  
390 Bay Street, Suite 1720  
Toronto, Ontario  
M5H 2Y2

Dear Ms. Geneau:

**Re: East Durham Wind Inc.'s (the "Applicant") application to determine location  
of distribution facilities within road allowances  
Board File No. EB-2013-0233**

The Board has determined that two points of clarification are required with respect to the Record in the above noted proceeding. The Board refers you to the interrogatory response provided by the Applicant in response to Board staff interrogatory No. 2 (ii) and to the updated map provided as part of the Applicant's Argument-in-Chief.

The Board requires the Applicant to provide a more detailed response to the above referenced interrogatory by providing the analysis that underpins the determination of the "1- 4 meter" parameter and to submit any relevant documentation that supports the request.

With respect to the map, the Board observes that a short portion of the segment of the line that runs along Baptist Church Road (*see top left hand corner of the map*), appears to originate on private lands, but is marked in "blue" to denote that it is located on a municipal right-of-way. The Board requires the Applicant to indicate whether the map provided as part of its Argument-in-Chief is accurate with respect to the segment of the line along Baptist Church Road.

The Board has decided to reopen the record in this proceeding for the limited purpose of receiving your reply to this request. You must provide your updated response to the above noted matters, by October 4, 2013. Intervenors and Board staff shall provide their comments in relation to the updates, if any, by October 7, 2013.

Sincerely,

*Original signed by*

Kirsten Walli  
Board Secretary
