## LETTER OF COMMENT

### Comments:

Gentlemen:

I read the OEB notice in todays' (Sep 1, 2013 paper).

Now I have only one comment, what is in the Sarnia Observer and also what is online , is a bunch of "goobly-gook" . Its so convoluted that only a lawyer or "electricity pro" can decipher your notice.

Questions Item "quote - they make up one of the five line items on your bill unquote" what are you talking about.

The increase of \$0.07 charge each month. Is this a \$0.07 charge on the total invoice. Or is it a number of factors that multiply the \$0.07 charge by a number of factors??????? It is certainly not understandable by the average household electricity user.

Please supply an explanation to this letter. I know in the end I and all other electricity users will be "shafted", so the top tier of management still stuff their pockets with money.

A logical reply is requested as to the ramifications of this "needed?) increase.

Sincerely

Louis Joe
