Subject: Attention of Rudra Mukherji or Edik Zwarenstein

Dear Rudra and or Edik - Let it be shown that myself Mrs. Faye Suthons and my husband Mr. Douglas Suthons do not want to see Hydro One Networks Inc. upgrading 25 kilometers of currently idle 115 kilo volt electricity transformer line thus building 100 m connection to transformer station since this line would connect a wind farm NRWC and line to provincial power grid.

As Ontario taxpayers, Hydro One customers and God fearing nature loving people, we believe the whole entire wind turbine development is off the rails and it is time to STOP.

Realizing your time is valueable I have kept this brief but please feel free to contact [REDACTED]

Mr. and Mrs. Douglas and Faye Suthons
