Northern Ontario Line.**

---

**Undertaking:**

TCPL to provide the level of firm contracts on the Prairies and NOL sections.

**Response:**

TransCanada agreed to provide the level of firm contracts as a percent of its current capacity. Capacity information was provided in the response to TCPL.EGD.2 (a). As of November 1, 2013 the capacity of the Prairies segment is 6,580 TJ/d and the Northern Ontario Line is 3,150 TJ/d.

Based on current Firm Services (FT, FT-NR, STS) for December 1, 2013, the level of firm contract on the Prairies is 2,632 TJ/d and the NOL is 1,676 TJ/d.

Firm service as a percent of capacity for the Prairies is 40%, and for the NOL, 53%.
