**Undertaking J9.5**

**Response to  
Undertaking given by Mr. Schultz to Mr. Mondrow at Transcript Reference Vol. 9,  
Page 123, Line 23, with respect to the expected filing date of the Kings North project and  
the expected NEB approval time line.**

---

**Undertaking:**

TCPL to provide the best information as to when they expect to file the facilities application before the NEB; TCPL to include an anticipated approval time line from the NEB.

**Response:**

At this time, TransCanada anticipates filing a Section 58 Application for the King's North project in July of 2014, and estimates it could receive a decision from the NEB around March of 2015, based on NEB service standards and past performance. A contested hearing or unforeseen delays could extend these dates.
