## Ontario Energy Board

**IN THE MATTER OF** the *Ontario Energy Board Act, 1998*;

**AND IN THE MATTER OF** an Application by Ontario Power Generation Inc. for an order or orders approving payment amounts for prescribed generating facilities commencing January 1, 2014.

### NOTICE OF INTERVENTION

OF

### ENERGY PROBE RESEARCH FOUNDATION

Energy Probe Research Foundation (Energy Probe) applies for intervenor status in this proceeding.

#### Statement of Interest

Energy Probe is a non-profit environmental and consumer organization which promotes economic efficiency in the use of resources. Energy Probe will be representing its residential customer supporters in Ontario, of which we have some number of thousands, and also representing a broader public interest concern with respect to the overall financial health and operational integrity of our utilities. Energy Probe will be intervening on issues which the Foundation believes to be in the public interest.

#### Intervention

Energy Probe intends to appear and participate in the hearing. Energy Probe expects to be a full-time intervenor and will be assisted by experts. Energy Probe was a funded intervenor in the Board's regulatory process to establish the methodology to be used to set the payment amounts, which underpin the subject of this proceeding, in the EB-2007-0905 Payment Amounts proceeding, in the EB-2010-0008 Payment Amounts proceeding and in the EB-2012-0340 Consultation – Incentive Rate Making Options for Ontario Power Generation's Prescribed Generation Assets.

## Costs

Energy Probe is a non-profit organization which relies on individual donations to help protect the public interest. Without the prospect of an award of costs, Energy Probe's ability to participate in proceedings would be very limited. Energy Probe intends to seek a cost award in this proceeding, and expects to intervene responsibly, cognizant of the Board's guidelines regarding cost awards.
