## **LETTER OF COMMENT**

**Comments:**

We've already had numerous rate hikes including another one that took place on November 1, 2013. We as ratepayers can't afford these constant increases. OPG should be working hard to find inefficiencies which they are clearly not doing and would simply prefer to raise rates on a captive audience. How come energy prices in Quebec are half that in Ontario? I would prefer that OPG request an audit be done to explain why the utility is so badly mismanaged instead.

Thank you.
