Kirsten Walli
Board Secretary
Ontario Energy Board
2300 Yonge Street, 27th Floor
Toronto, ON. M4P 1E4

Dear Ms. Walli:

**RE: Atikokan Hydro Inc.
2014 IRM Distribution Rate Application
Board Staff Interrogatories
Board File No. EB-2013-0111**

Atikokan Hydro's responses have been filed electronically using the Board's e-filing system using the following form:

- (a) Electronic filing through the board's web portal at www.err.oeb.gov.on.ca, consisting of one (1) electronic copy in searchable /unrestricted PDF format and hard copy by Canada Post.

We would be pleased to provide any further information or details that you may require relative to this application.

Yours truly,

A handwritten signature in black ink that reads "Wilf Thorburn". The signature is written in a cursive style with a large, looped "W" and a long, sweeping "T".

Wilf Thorburn
CEO Secretary/Treasurer
Atikokan Hydro Inc.
117 Gorrie Street
Atikokan, Ontario P0T 1C0

1. 2014 RTSR Adjustment Work Form

Please confirm that the amounts entered into the columns "Non-Loss Adjusted Metered kWh" and "Non-Loss Adjusted Metered kW" have not been adjusted by Atikokan Hydro's Board-approved loss factor.

1. Atikokan Hydro confirms the amounts entered into the columns "Non-loss Adjusted Metered kWh" and "Non-loss Adjusted Metered kW" have not been adjusted by Atikokan's Board-approved loss factor.

2. Line Connection

Board staff notes that while Atikokan pays the IESO Network and Transformation Connection Charges, it does not pay Line Connection Charges.

a) Please state why Atikokan does not pay the IESO line connection charges.

2. Atikokan Hydro does not pay IESO lines fees because Atikokan Hydro is directly connected to Moose Lake TS [grid connected] and Atikokan Hydro owns the 44 kV lines that connect directly to Moose Lake TS and supply Atikokan Hydro's substations.

3. 2014 Rate Generator Work Form

STREET LIGHTING SERVICE CLASSIFICATION

Board staff notes that the description for "Service Charge" for Street Lighting rate class does not match with Atikokan Hydro's last Board-approved Tariff of Rates and Charges. Board staff notes that the correct description is "Service Charge (per connection)". If this is an error, Board staff will make the necessary correction.

3. Atikokan agrees the Service Charge for Street Lighting rate is per connection and should have been included in the Rate Generator Work Form. The Board Staff can make the necessary correction on the Tariff of Rate and Charges.

4. Shared Tax Savings Work Form

Board staff notes that the number of connections for the Street Lighting rate class provided in the Shared Tax Savings, column A is 635 as opposed to 623 in the 2012 COS Revised Draft Rate Order1 (EB-2011-0293).

- a) Please confirm if Atikokan Hydro agrees, and Board Staff will make the necessary correction to the work form.
- b) If the answer to a) is no, please provide an explanation for the data entered.

4 a) Atikokan agrees with the Board Staff that Column A should be corrected to 623 connections. This information agrees with our 2012 COS Revised Draft Rate Order (EB-2011-0293).

5. Street Lighting Service Classification

Board staff notes that Atikokan Hydro has not entered the Street Lighting rate in Sheet 3, Column D, cell M25 of the Shared Tax Savings Work Form. Board staff notes that the rate is "\$11.93".

- a) If this is an error, Board staff will make the necessary correction.

5. This is an omission of information. Street Lighting should be included in the Shared Tax Savings Work Form. There are 623 connections at service charge of \$11.93 per connection.
