Attention: Board Secretary

**Re: Dufferin Wind Power Inc.
Application for Authority to Expropriate Land to Construct, Operate and Maintain Certain
Transmission and Distribution Facilities
Board File No. EB-2013-0268**

I am writing to request that the Ontario Energy Board deny Dufferin Wind Power permission to expropriate.

I am opposed to having any Canadian owned land expropriated by a communist, Chinese owned company, for their own profit. Dufferin Wind Power has lied to its participants and the community. DWPI has bullied their way to get what they want despite objections from the community. The Dufferin rail corridor is owned by Canadian tax payers and should not be handed over to Dufferin Wind Power against the will of the people. Private land owners who are unwilling to allow Dufferin Wind free reign to clear their trees, destroy farmland and wildlife habitat in order to erect transmission lines, also have their rights denied.

Melancthon Township has been declared an "unwilling host" and yet in this "democratic country", expropriation is allowed to serve the agenda, under the Green Energy Act. Melancthon already has done their fair share in hosting industrial turbines and should not be forced to host more.

As a Melancthon resident, who lives within the DWP project area, I am opposed to the expropriation and ask that you refuse Dufferin Wind Power 's request.

I await your response and acknowledgement of my objection.

Regards,
Susan Sanford
