Subject: Hydro rates

I am a senior, and a widow. I want to know how you expect people to live, on these MAFIA hydro rates. You monkeys in suits, don't give a damn about the citizens (Tax Payers) of this country we call Canada. These rates are ridiculous, and ripping us off every day. Your delivery charges, debt retirement charges, regulatory charges, then your screw up charges. Is that why McGinty is out now ? ? ? You think your 10 percent back really helps a 46 percent increase. I try to keep my head above water, but you keep pushing me under. I have to choose between eating, and keeping warm ? I feel like I live in a foreign country now. Quit sending our money to other countries, when we were starving, and in poverty ourselves. This government don't care, they have money and greed on your minds every day. STOP these hydro prices. We are all tired of falling on deaf ears. We shall be heard ! ! And hopefully You's will listen.

Thankyou

Laureen Duclos
