Subject: WAIT-PW - Ontario Energy Board - EB-2013-0361 Jericho

VIA EMAIL

November 18, 2013

Dear Ms. Walli

Re: EB-2013-0361

We're Against Industrial Wind Turbines - Plympton-Wyoming (WAIT-PW) is a grassroots concerned citizens group in Lambton County representing thousands of residents in the County who have signed our petition which states,

Whereas, local citizens wishes regarding the development of wind turbines in their vicinity are not being properly consulted or informed;

Whereas, local government decision making in regard to wind turbines has been rendered powerless;

Whereas, wind turbines have been divisive in other Ontario communities;

*Whereas, **electricity costs in Ontario have skyrocketed** since the introduction of the Green Energy Act;*

Be it resolved that, we the undersigned feel that no further wind turbine development should take place, until citizens are properly consulted and informed, and local government processes respected.

WAIT-PW would like to make the following requests of the Board:

Request Timeline Extension and Appropriate Public Notice

In order for the Ontario Energy Board to protect the public's interest, they must ensure the public has been adequately informed about this application and hearing. It is our understanding the applicant did not post notice in the local newspapers. The public cannot express their views and participate in the decision-making process if they are unaware of this

hearing. WAIT-PW requests the Board consider an extension on the deadline for intervenors and observers and that the applicant provide appropriate public notice.

Request Public Hearing

The proposed transmission line is of concern to many residents. An oral hearing will allow intervenors to cross examine witnesses for the proponent.

Request for Observer Status

WAIT-PW would like to request observer status on this hearing.

Sincerely,

Elizabeth Bellavance on behalf of WAIT-PW
