VECC Question #1

Reference: Application Page 12, Table 3

- a) Please provide the rationale for the billing determinants used to calculate the LRAMVA rider.

Response:

Westario has used its Board Approved 2013 CDM adjusted load forecast as the billing determinants for calculating the LRAMVA rate rider. The rationale would be that these determinants are the most current billing determinants available.

VECC Question #2

Reference: Elenchus Report, Tab 1, Schedule 5, Page 1

- a) Please confirm Westario has not recovered any of the amounts proposed in this application in a previous application.

Response:

Westario confirms it has not recovered any of the amounts proposed in this application in a previous application.

VECC Question #3

Reference: Elenchus Report, Tab 1, Schedule 4, Page 1, Assumptions

- a) Please provide a summary of the CDM measures implemented in 2011 and 2012 that have persistence of one year.

Response:

Westario had no demand response CDM measures implemented in 2011 and 2012 that would have persistence of one year.
