EB-2013-0119  
Response to VECC Interrogatories**

**VECC Question # 1**

**Reference:** Low Voltage Billing Error

- a) Please provide the 2014 bill impacts by customer class of the low voltage billing error and show all calculations.

**Response**

***Column A in the following table shows the impact the low voltage billing error will have on CPUC's customer classes compared to current rates.***

***Column B in the following table shows the impact without the low voltage billing error will have on CPUC's customer classes compared to current rates.***

***Column C is the difference between A and B.***

***The \$ amounts are all based on the average size customer.***

<b>Customer Class</b>	<b>A - Rates</b>		<b>B - Rates</b>		<b>C</b>	
	<b>\$</b>	<b>%</b>	<b>\$</b>	<b>%</b>	<b>\$</b>	<b>%</b>
<b>Residential</b>	(2.84)	(1.79)	(10.28)	(6.48)	(7.44)	(4.69)
<b>General Service &lt;50 kW</b>	(4.35)	(1.15)	(23.22)	(6.14)	(18.87)	(4.99)
<b>General Service &gt;50 kW</b>	(22.79)	(0.43)	(328.93)	(6.21)	(306.14)	(5.78)
<b>Unmetered Scattered Load</b>	(1.37)	(3.54)	(2.14)	(5.56)	(0.78)	(2.02)
<b>Sentinel Lighting</b>	2.14	11.23	1.47	7.71	(0.67)	(3.52)
<b>Street Lighting</b>	0.08	1.00	(0.41)	(0.51)	(0.49)	(1.51)
