Subject: Re: EB-2013-0321

Since the day our home was put on TOU billing, I have scheduled my life and my families around when it would be cheapest to use the power. Consistently over the last few years my hydro bill continues to increase despite my great efforts. A 30% hydro hike is way too much to ask us to pay when it will only pad your pockets! It is pure lunacy! Please do not allow this rate hike to pass!

Sincerely,  
Natasha Gulliver
