

Ms. Kristen Walli  
Board Secretary  
Ontario Energy Board  
PO Box 2319  
2300 Yonge Street, 27<sup>th</sup> Floor  
Toronto, Ontario  
M4P 1E4

December 2, 2013

Dear Ms. Walli,

**Re: Jericho Wind, Inc. - Application for Leave to Construct Transmission  
Facilities (EB-2013-0361) - Minor Amendments to Pre-Filed Evidence**

It appears that Jericho Wind, Inc. has been premature in submitting their Application for Leave to Construct this transmission facilities since, contrary to the claims of their representative, the amendments are anything but minor in nature. According to the Applicant's submission (Exhibit F, Tab 1, Schedule 1, Page 9, lines 5-6), all land agreements with the private landowners were to have been already negotiated. Clearly this was untrue.

Although I have had but two days in which to assess the changes before all requests for intervenor status are required, it appears the changes affect over 90% of the total transmission line that forms part of this application. As such, careful consideration must be made to determine how these changes will affect people living near this transmission facility.

I respectfully request that the Board direct the Applicant to notify each landowner directly affected by the changes, and to notify the general population in the communities of Lambton Shores and North Middlesex by posting the changes in the two local publications: The Parkhill Gazette and the Forest Standard.

Further it would be appropriate for the Board grant a two week extension for intervenor status requests once notification has occurred to ensure all affected residents have an opportunity to review and respond to the amendments.

Sincerely,

Marcelle Brooks
