**Subject: Electricity Generator License- Greenfield South Power Corporation (EG-2009-0023)**

We are writing with reference to the subject Generator License and our letter of July 27, 2012 informing the Board that the facility identified in Schedule 1 of the license has been renamed and is to be relocated from 2315 Loreland Avenue, Mississauga.

We wish to bring to your attention that the facility is to be relocated in accordance with our agreement with the Ontario Power Authority and are requesting an amendment to Schedule 1 of the Generator License. The impacts of relocating the facility have been canvassed in detail with relevant government bodies as well as with members of the public and with members of the business community, as is mandated for a project of this type by the Environmental Assessment Act and the Planning Act (including applicable regulations thereunder). Aside from any residual impacts which have already been adequately addressed by these approval processes, no person other than the licence holder will be adversely affected in a material way by the outcome of this amendment.

Therefore, in accordance with Section 21(4)(b) of the Ontario Energy Board Act, 1998, we request that the Board dispose of this request without a hearing.

**Information in support of the amendment to Schedule 1**

Name of the facility	Green Electron Power Project
Address of the facility	477 Oil Springs Line St. Clair Township, ON N0N 1H0
Size	Approx. 300 MW nominal
Fuel Type	Natural Gas
Number of units	2 (1 combustion turbine and 1 steam turbine)
Name of the Owner	Greenfield South Power Corporation
Name of the Operator	Greenfield South Power Corporation
Capital cost of the project	\$ 400 MM (approximately)
Brief description of financing arrangements	Corporate Financing
Date that generator is expected to be operational	01 June 2014
Whether or not the facility is under a Standard Offer Program contract	No. The facility is under a Clean Energy Supply Contract with the Ontario Power Authority

We request that Schedule 1 to the existing license be amended at the earliest possible opportunity and the validity of the license extended to 2033. Please feel free to contact us if there are any questions or concerns regarding these matters.

Yours sincerely

Greenfield South Power Corporation

Hubert Vogt, P.Eng  
Vice President
