**Subject:** wpd White Pines project, Prince Edward County. File EB-2013-0339

Dear Ms. Walli and Mr. Pickernell:

I am Chair of the County Coalition for Safe and Appropriate Green Energy (CCSAGE). We reach over 2,000 e-mail contacts in our area and interest ourselves in all local proposed energy initiatives.

I am surprised that the Board proposes only a written hearing. As you are aware, the Council of Prince Edward County is opposed to the project and the transmission line, has called for a moratorium on all wind projects and declared itself not a willing host. I believe the County is to be an Intervenor. The wpd project is a matter at the very top of local interest and concern.

To address that interest and justified concern with a written hearing pays no attention, I respectfully suggest, to the precepts of natural justice which require a person to present his/her case in his/her own chosen manner.

May I add my voice to probably the majority of thinking Prince Edward County residents in requesting an oral, and not a written, hearing, to be held in the County and not in downtown Toronto.

Yours very truly,

Garth Manning.

Chair, CCSAGE.
