**Attention: Kirsten Walli
Board Secretary**

Dear Ms. Walli:

**Re: Varna Wind Inc. Leave to Construct
Board File No. EB-2012-0442
Update to diagram – intersection of Centennial Road and Hannah Line**

On behalf of Varna Wind Inc., we write to provide an updated diagram in relation to one pole of the transmission facility in respect of which the Board granted leave to construct on November 4, 2013.

As a result of concerns raised by Hydro One Networks Inc. and the municipality of Huron East, Varna Wind Inc. will not be constructing pole 83, as previously planned for its transmission facilities. Although the removal of the planned pole 83 does not constitute a material change to the transmission facilities nor does it constitute a change to the route of the line, Varna Wind Inc. is nevertheless providing an updated diagram for this area of the transmission line, namely the area of the intersection of Centennial Road and Hannah Line.¹

As can be seen in the diagram attached at Schedule "B", the result of the removal of the planned pole 83 will be that in the area where the transmission line runs in the right-of-way adjacent to the property owned by Gerhard and Heather Ritzema (the "Ritzemas"), the line will run further away from the Ritzemas' property line. The diagram previously provided to the Board is attached at Schedule "A", for ease of reference.

¹ Varna Wind Inc. previously provided a detailed diagram of the poles in this area in response to questions asked in the course of the proceeding. There would be no need for Varna Wind Inc. to provide an updated diagram if these detailed diagrams had not been provided, as other maps showing the route of the line are not affected.

Please contact the undersigned if you have any questions in relation to the foregoing.

Sincerely,

Signed in the original

George Vegh
