**Re: EB-2013-0430 – New and Updated DSM Measures**  
**Joint Submission from Enbridge Gas Distribution Inc. and Union Gas Ltd.**

The DSM Guidelines for Natural Gas Utilities (EB-2008-0346) direct gas utilities to file an annual application to update approved input assumptions.

As encouraged by the Ontario Energy Board (the "Board") on December 19, 2012, Enbridge Gas Distribution Inc. ("Enbridge") and Union Gas Limited ("Union") filed a joint application for approval for new and updated DSM measures for 2012 which was approved by the Board on January 31, 2013.

There have been no changes to the measures since the 2012 application and both Enbridge and Union continue to use the currently approved measures.

Meetings as well as discussions regarding the Technical Reference Manual will be taking place the first few months of 2014 which may result in changes to the 2013 Input Assumptions. Therefore, Union and Enbridge are proposing that an application for the approval of 2013 DSM input assumptions be filed in the first quarter of 2014.

The Technical Evaluation Committee is aware of this proposal and endorses the delayed filing.

Please indicate if this letter is sufficient for the Board's purposes for 2013 until a more current application can be filed in 2014.

December 20, 2013

Ms. Kirsten Walli
