The applicant may require	a retailer licence. The a	application form ca	an be found at <u>www.oeb.gov.on.ca</u> .)

8. <u>Facility Description</u>	
Are you applying to be licensed for more than one facility? (Note that a f	facility may have more than one unit.)
Yes, please make a copy of sections 8, 9 and 10 for each facility an No	d provide information for each facility.
Generation Type	
☐ Diesel ☐ Natural Gas ☐ Water ☒ Wind	
Other, please specify	
Installed Capacity 270 MW	
Number of Units 00140	
Is the facility dispatchable?	
If you are selling ancillary services, please describe:	
Facility Name and Address	Township of Ashfield-
Colborne-Wawanosh in Huron County; Mailing Address: K2 Wind Ontario Inc. c/o Capital	Power, 46 Victoria Street North, Goderich, ON N7A 2
Licence Responsibility/Qualification Sought	
Owner Only (Please identify operator)
Operator Only (Please identify owner	
If you are applying for only one of the two qualifications, please provide in qualification. The information should include confirmation as to whether qualification is licensed and if not, indicate when an application for the oten security. 9. Facility History and Status	or not the person or entity seeking the other
Is the facility in commercial service?	
Yes, proceed to section 9(a)	
No, proceed to section 9(b)	
(a) Existing Facility When did this facility achieve commercial operation? Are you the original owner and operator?	
☐ Yes	
No, identify previous owner and operator:	

	Has facility construction commenced?			
	☐ Yes			
	No Nid - 2015			
	What is the expected in service date? Mid - 2015			
i	Please provide a list of all other regulatory approvals required (e.g. environmental, municipal, etc.). Please dentify the status of each approval. (Note: Your response may be continued on additional pages.)			
	See Attachment #3 (s. 9(b))			
. <u>C</u>	onnection			
nat	is the voltage at the perimeter of the applicant's property from the output of the generation facility?			
	0 kV or less, proceed to section 10(a)			
g	reater than 50 kV, proceed to section 10(b)			
İ	The <i>Ontario Energy Board Act, 1998</i> defines a distribution system as a system for distributing electricity, and ncludes any structures, equipment or other things used for that purpose. "Distribute", with respect to electricity neans to convey electricity at voltages of 50 kV or less.			
	near is to convey electricity at voltages of 50 kV or less.			
D				
p o	escribe the existing or future distribution equipment from the output of the generation facility to the connection point with the Local Distribution Company or to the connection point with the transmission system (e.g., length			
p o	escribe the existing or future distribution equipment from the output of the generation facility to the connection pint with the Local Distribution Company or to the connection point with the transmission system (e.g., length fline, transformers, etc.).			
p 0 ()	escribe the existing or future distribution equipment from the output of the generation facility to the connection point with the Local Distribution Company or to the connection point with the transmission system (e.g., length fline, transformers, etc.). Note: Your response may be continued on additional pages.)			
p 0 ()	escribe the existing or future distribution equipment from the output of the generation facility to the connection point with the Local Distribution Company or to the connection point with the transmission system (e.g., length line, transformers, etc.). Note: Your response may be continued on additional pages.)			
p 0 ()	escribe the existing or future distribution equipment from the output of the generation facility to the connection point with the Local Distribution Company or to the connection point with the transmission system (e.g., length fine, transformers, etc.). Note: Your response may be continued on additional pages.) Des (or will) the applicant own and/or operate the distribution equipment? Yes			
p 0 ()	escribe the existing or future distribution equipment from the output of the generation facility to the connection point with the Local Distribution Company or to the connection point with the transmission system (e.g., length line, transformers, etc.). Note: Your response may be continued on additional pages.)
