

**EB-2014-0010**

**IN THE MATTER OF** the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, Schedule B;

**AND IN THE MATTER OF** an application by Woolwich Bio-en Inc. for an electricity generator licence.

By delegation, before: Viive Sawler

**INTERIM DECISION AND ORDER**  
**January 17, 2014**

Woolwich Bio-en Inc. filed an application on January 8, 2014 with the Ontario Energy Board under section 60 of the *Ontario Energy Board Act, 1998* (the "Act") for an electricity generator licence as a Feed-In Tariff Program participant.

As prescribed under section 57 of the Act, all entities generating electricity in the Ontario electricity market are required to hold a licence. In a letter filed on January 9, 2014, the applicant requested an interim licence. The applicant stated that it requires an interim licence in order to commission its generation equipment on January 31, 2014.

Considering the time required to process the application in accordance with the Board's established practice and procedures, and considering the applicant's need for a licence to carry out activities as an electricity generator, it has been found to be in the public interest to issue an interim order under sections 21(4)(b) and 21(7) of the Act granting the requested electricity generator licence, pending the final disposition of the matter.

The applicant is reminded that this interim decision does not constitute a final decision on the application.

**IT IS THEREFORE ORDERED THAT:**

An electricity generation licence is granted, on an interim basis, on such conditions as are contained in the attached licence. The licence will be valid until April 16, 2014, or until the final determination of the electricity generation licence application, whichever is earlier.

**DATED** at Toronto, January 17, 2014

**ONTARIO ENERGY BOARD**
