**Subject:** RE: EB-2013-0268 Dufferin Wind Power Inc.

Good afternoon all,

On behalf of our clients, we do not take issue with the propriety of any of the draft issues proposed by Board staff in their correspondence dated January 17, 2014. We, do propose, however, the following additional issues for the draft issues list, to further particularize our clients' interests in these proceedings:

3.1 Do appropriate and reasonable steps to minimize the impact of the proposed expropriations on the Atkinson Farms, Atkinson, and Coe properties include burying the transmissions lines designed to traverse these properties?

4.1 Does minimizing the disruption to Atkinson Farms, Atkinson and Coe require that DWPI request an easement that would only permit transmission lines to traverse the Atkinson Farms, Atkinson, and Coe properties if those lines are buried?

6. Is it contrary to the Ontario Energy Board's decision in EB-2012-0365 to require now that any transmission lines traversing the Atkinson Farms, Atkinson, and Coe properties by buried?

Kind regards,

**LAURA K. BISSET**
