Dear Ms. Walli:

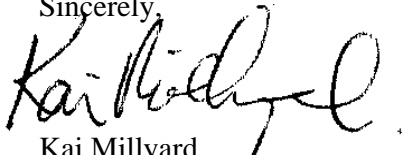

Re: EB-2013-0352 Enbridge DSM Variance Accounts - GEC Submissions

I write on behalf of GEC in response to Mr Shepherd's letter of February 10th in regard to confidentiality and the completeness of Enbridge's evidence.

GEC strongly supports SECs submission that Board should require EGDI to comply with the Board's rules on confidentiality, and file an unredacted version of the evidence subject to appropriate safeguards that the Board may require.

In GEC's submission there can be no question that detailed information is required to enable a reasoned assessment of Enbridge's claim. Accordingly we support SEC's request for the Board's direction and for sufficient time to review the material produced.

Sincerely,
