Subject: Letter of comment regarding EB2013-0416

In regards to EB2013-0416 the proposed rate increase by hydro one as a home owner who has seen my bills getting higher and higher I feel it is just GREED that fuels hydro one. they propose rate I cries after rate increase bringing its costumers to the breaking point. I pay twice the amount for delivery charge than I use in actual power I feel this is wrong. I have done research into hydro rates and we in Ontario are the highest in Canada and not just by a small margin but by an average of around 35% higher than the second closest province. WHY!!!!
