**Attn: Ms. K. Walli, Board Secretary**

Dear Ms. Walli:

**Re: Application for Intervenor Status, Suncor Energy Products Inc. Application  
EB-2014-0022**

Please accept this letter, pursuant to Rule 23 of the OEB's Rules of Practice and Procedure, as Application by The Corporation of the County of Lambton ("County of Lambton") for Intervenor Status in the aforementioned application by Suncor Energy Products Inc. Further, please accept this letter as proof that the undersigned acts as solicitor for the County of Lambton. For the purpose of service of any and all future documents, please use the address included on this correspondence's letterhead.

The County of Lambton is an upper-tier municipality, as defined by the *Municipal Act, 2001*, and as such is a democratically elected government with provincially delegated authority for the safe provision of certain public highways within its geographic territory.

The County of Lambton has a substantial interest in this application as the Applicant proposes to construct infrastructure which would serve the purpose of transmission and/or collection of electricity within the rights-of-way of County owned and maintained roads, as is specifically contemplated in paragraph 8 of Suncor's Application and within the details identified under "Project Location".

The County, other utility providers and the public in general have an interest in determining what, if any, impact the proposed infrastructure would have on the current and future needs of the right-of-way, including maintenance thereof and of ensuring that all approved infrastructure is located in accordance with the Ministry of Transportation's Design Guidelines for Highways and other applicable Canadian road design standards.

The County of Lambton fully intends to actively participate in this hearing by the submission of evidence, the submission of legal argument and potentially cross-examining witnesses (either in writing, or orally, should it be deemed advisable to seek an oral hearing).

The County of Lambton does not intend to seek an award of costs as a result of its proposed Intervenor Status.

Yours truly,

David Cribbs, BA, MA, JD, MPA
