

ONTARIO ENERGY BOARD

IN THE MATTER of the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, Schedule B;

AND IN THE MATTER of an Application by Rainy River Resources Ltd. for an Order or Orders under sections 92, 96, 97 and 101 of the *Ontario Energy Board Act, 1998* granting Leave to Construct new Transmission Facilities between the Rainy River Mine and the Hydro One Networks Inc. 230 kV Transmission Grid north of Highway 615 near Panorama Lake in the Township of Chapple in the Territorial District of Rainy River

AFFIDAVIT OF SERVICE AND PUBLICATION

I, **CAROL THOMAS**, of the Town of Aurora, in the Regional Municipality of York, Ontario, MAKE OATH AND SAY AS FOLLOWS:

1. I am a legal assistant at Aird & Berlis LLP, counsel for Rainy River Resources Ltd. (the "**Applicant**"), and as such have knowledge of the matters hereinafter deposed to.
2. Pursuant to the Ontario Energy Board's Letter of Direction ("**LOD**") dated February 7, 2014, I served the attached Notice of the Ontario Energy Board (with location map) ("**Notice**") and Application, by sending the same via Canada Post Registered Mail to all persons and entities described in Clauses 4(a), (b), (c), (g – telecommunications or other utilities), (i), (j) and (k) of the LOD. The names of the persons and entities served and the "delivery status" of the Registered Mail are described at Items 1 through 17 and Items 27 through 56 of the List of Parties Served, which is attached hereto and marked as **Exhibit "A"**. Attached hereto and marked as **Exhibit "B"** are the related Canada Post Registered Mail receipts and tracking delivery sheets.

3. In respect of Clauses 4(d), (e), (f) and (g – rail lines), of the LOD, I am advised by Wayne Clark of ZanZoe Consulting, Inc., and verily believe as follows:
- (a) No distributor (other than Hydro One Networks Inc.) is present in the service area encompassing the proposed Transmission Line and the mine;
 - (b) There are no generators directly connected to the transmission line to which the proposed Transmission Line will connect;
 - (c) There are no transmission customers directly connected to the transmission to which the proposed Transmission Line will connect; and
 - (d) There are no rail lines crossing the route of the proposed Transmission Line.
4. Pursuant to Clauses 4(h) and 7 of the LOD, I served the Notice (with location map) and Application on the municipalities affected by the Rainy River Powerline Project, and forwarded a hard copy of the Application and Pre-filed Evidence, by sending the same via FedEx courier on February 13, 2014, to the attention of the Clerks of the Municipalities identified in Exhibit "A" hereto at Items 18 through 26. Attached hereto and marked as **Exhibit "C"** are the related FedEx Tracking Sheets confirming delivery to the subject municipalities.
5. Pursuant to Clause 2 of the LOD, attached hereto is the Notice with location map as published on February 19, 2014, in The Westend Weekly ("**Exhibit "D"**"), at Rainy River, Ontario, and The Fort Frances Times ("**Exhibit "E"**"), at Fort Frances, Ontario, respectively. These papers have the highest paid circulation in each of the Township of Chapple and the Territorial District of Rainy River, according to the best information available.

Sworn before me at Toronto,
Ontario, this 21st day of February,
2014.
A Commissioner for Taking Affidavits

ONTARIO ENERGY BOARD NOTICE

Rainy River Resources Ltd. has applied to the Ontario Energy Board to build a high-voltage transmission line.

Learn More

Rainy River Resources Ltd. is asking the Ontario Energy Board ("OEB") for permission to construct approximately 17 km of 230 kV electricity transmission line and associated facilities. The line would connect the company's Rainy River Mine in the Township of Chapple in the Territorial District of Rainy River in northwestern Ontario to the provincial power grid.

Rainy River Resources Ltd. has also filed with the OEB a form of agreement it offers to landowners to use their land for routing or construction of the proposed line and associated facilities.

A map of the proposed route for the transmission line is printed below.

Rainy River Resources Ltd.'s application to the OEB concerns construction of the proposed transmission line and associated facilities only. It does not concern the construction or operation of the Rainy River Mine project itself.

The OEB is an independent and impartial public agency. It will hold a public hearing to consider Rainy River Resources Ltd.'s request. During this hearing, the OEB will consider evidence and arguments by Rainy River Resources Ltd. and by individuals, municipalities and others whose interests would be affected.

The OEB hearing will consider specific issues required by law.

The *Ontario Energy Board Act* specifies the issues the OEB is to consider in making its decision. If you wish to participate in the OEB hearing, it is important for you to understand what these issues are.

As required by the *Ontario Energy Board Act* the OEB will consider three issues:

- The interests of consumers with respect to prices and the reliability and quality of electricity service;
- In a manner consistent with the policies of the Government of Ontario, the promotion of the use of renewable energy sources; and
- The form of agreement that Rainy River Resources Ltd. offers to landowners affected by the route or location of the transmission line.

The OEB hearing is not the only approval process required before a line is built.

For example, most transmission lines are subject to the Ministry of the Environment's Environmental Assessment process. The Board's review will only address the three factors outlined above and will not address other factors, such as environmental, health, aesthetics or property value impacts.

BE INFORMED

You have the right to information regarding Rainy River Resources Ltd.'s application.

You can:

- Read Rainy River Resources Ltd.'s application on the OEB's website (See below under "Learn More")
- Sign up to be an observer, who will automatically receive documents for the hearing.

HAVE YOUR SAY

If you would be affected by the proposed transmission line, you may want to take a more active role in the hearing. You can:

- Send the OEB a letter with your comments, which will be considered during the hearing; or
- Ask the OEB for permission to be an active participant in the hearing (an intervenor). Intervenors can provide evidence, argue their positions and submit relevant questions to be answered by Rainy River Resources Ltd. (interrogatories). To be an intervenor, a party must be affected by the transmission line in a way that relates directly to the issues the OEB will consider. If you wish to be an intervenor, the OEB must receive your request by March 1, 2014.

LEARN MORE

To read the documents concerning this hearing please go to the OEB website www.ontarioenergyboard.ca/, click on "Consumers" and enter file number **EB-2014-0014** in the "Find an Application" box. You can also phone Robert Caputo at **1-888-632-6273** extension 632 with any questions.

Oral and Written Hearings

There are two types of OEB hearings - oral and written. The Board intends to use a written hearing for this case unless there is a good reason why an oral hearing is necessary. If you believe an oral hearing is necessary, you must provide written reasons to the OEB by March 1, 2014.

Privacy

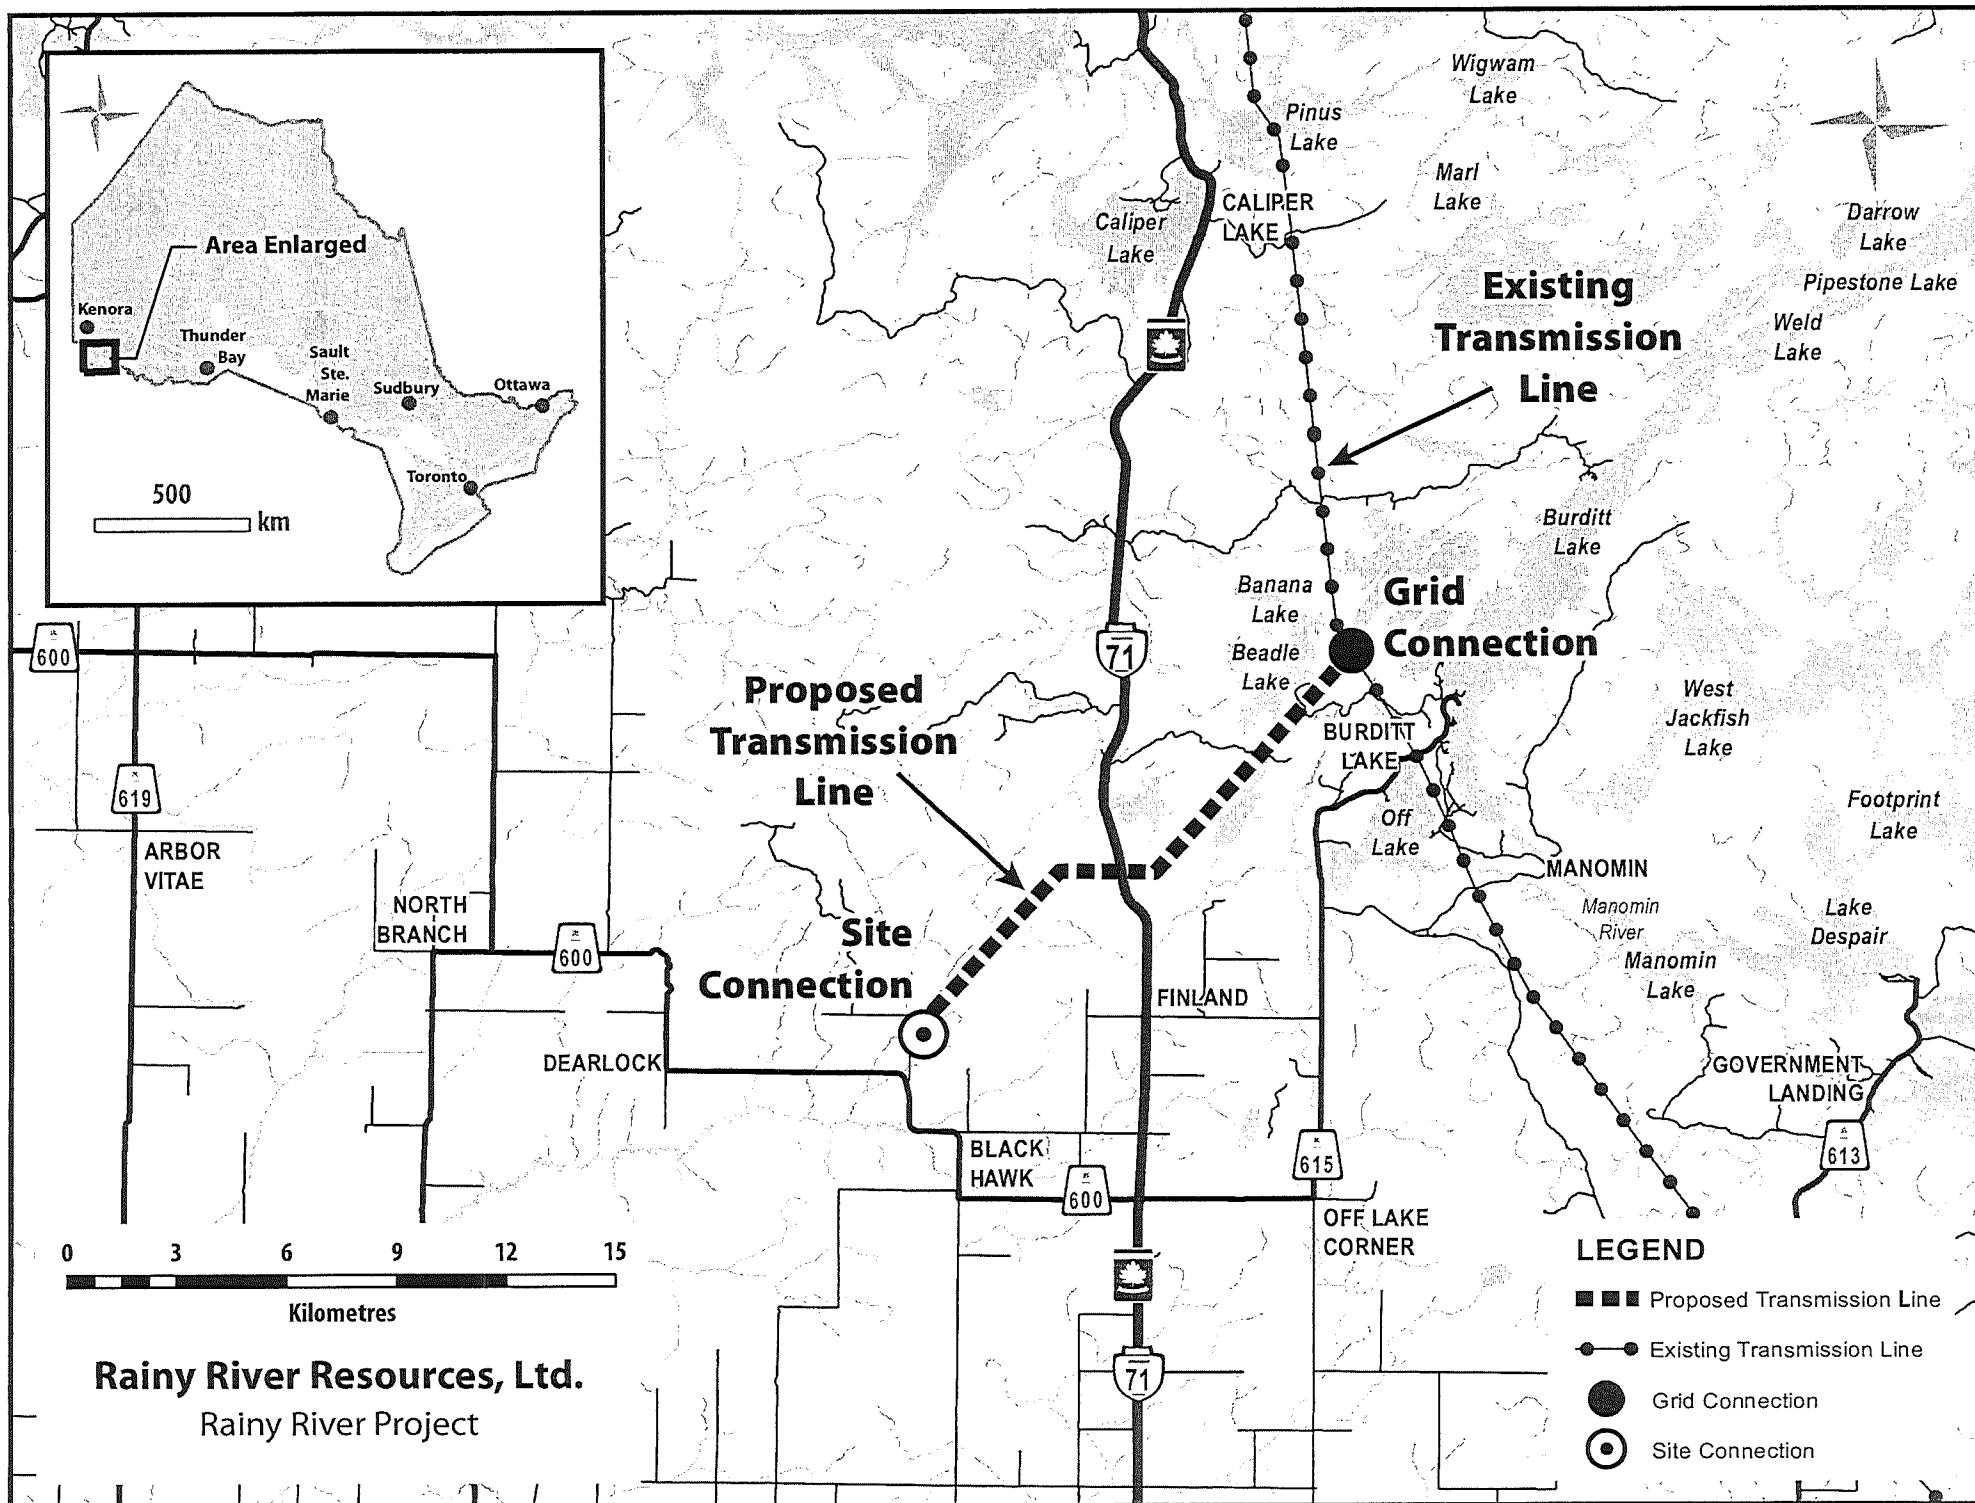

If you write a letter with your comments, your name and the content of your letter will be put on the OEB's public record and the OEB website. However, your personal telephone number, address and email address will be removed. If you are a business, all your information will be public. If you apply to become an intervenor, all your information will be public.

This application was filed under sections 92 and 97 of the Ontario Energy Board Act, 1998 S.O. 1998, c.15, Schedule B.

IN THE MATTER of the *Ontario Energy Board Act, 1998*,
S.O. 1998, c.15, Schedule B;

AND IN THE MATTER of an Application by Rainy River Resources Ltd. for an Order or Orders under section 92, 96, 97 and 101 of the *Ontario Energy Board Act, 1998* granting Leave to Construct new Transmission Facilities between the Rainy River Mine and the Hydro One Networks Inc. 230 kV Transmission Grid north of Highway 615 near Panorama Lake in the Township of Chapple in the Territorial District of Rainy River.

RAINY RIVER POWERLINE PROJECT

APPLICATION

- 1) Rainy River Resources Ltd. ("**RRR**" or "**Applicant**") is a corporation with its principal business office in Toronto, Ontario. RRR carries on the business of developing and operating mines. RRR is owned by New Gold Inc. ("**New Gold**"), an intermediate mining company with its head office in Vancouver, B.C. and an office in Toronto, Ontario. Publicly available information on RRR and New Gold has been provided at Exhibit B, Tab 1, Schedule 1, Appendix A and B respectively. New Gold is traded under the symbol NGD on the TSX and NYSE-MKT
- 2) RRR hereby applies to the Ontario Energy Board ("**Board**") pursuant to section 92 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15 Schedule B ("**OEB Act**") for an order or orders granting leave to construct approximately 17 kilometres of 230kV transmission line (the "**Rainy River Powerline Project**" or "**Transmission Line**") and facilities to provide electricity to the Rainy River Project ("**RRP**"). An overview map of the proposed Transmission Line is provided at Exhibit A, Tab 2, Schedule 2. More detailed maps are found at Exhibit B, Tab 2, Schedule 2.

- 3) The Rainy River Powerline Project includes 17km of 230kv transmission line, the station and breaker at the inter-connection to the existing Hydro One Networks Inc. ("**Hydro One**") 230kV transmission line, circuit K24F, and the transformer station at the mine.
- 4) The route of the Transmission Line was selected through an environmental assessment process and generally runs from the mine in a north-easterly direction to the inter-connection with the Hydro One K24F circuit near Panorama Lake.
- 5) RRR also applies, pursuant to section 97 of the OEB Act, for approval of the form of easement agreement found in Exhibit B, Tab 6, Schedule 4 and pursuant to section 101 of the OEB Act for authority to cross Highway 71.
- 6) The RRP will have an initial load of approximately 10MW and a peak demand of approximately 57MW. There are no transmission facilities adequate to supply the size of the load located near the RRP other than the proposed point of inter-connection.
- 7) The list of interested parties includes Hydro One, the Independent Electricity System Operator (the "**IESO**") and landowners, rights holders in close proximity to the proposed Transmission Line and certain First Nations, including those that have entered into a Participation Agreement with RRR. A list of interested parties is provided in Exhibit A, Tab 3, Schedule 2.
- 8) A draft affidavit of Title Search may be found at Exhibit B, Tab 6, Schedule 6. This will be finalized upon receipt of direction from the Board. The vast majority of the proposed route is on Crown land for which RRR has surface rights and for which a permit will be required from the Ministry of Natural Resources pending RRR's receipt of a mineral and surface lease with respect to the applicable lands.
- 9) The Applicant has completed a system impact assessment ("**SIA**") with the IESO. A copy of the SIA is found at Exhibit B, Tab 6, Schedule 2.
- 10) A customer impact assessment ("**CIA**") is currently being completed by Hydro One which will show the potential impacts, if any, to the reliability of service for other customers. RRR will

file the CIA as soon as it becomes available. RRR will adhere to the requirements of the CIA and SIA.

- 11) Construction of the Rainy River Powerline Project is anticipated to begin January 2015 with commissioning and energization occurring February 2016. Purchasing commitments to major equipment services is anticipated to be made during the summer/fall 2014.
- 12) RRR expects to enter into a series of agreements with Hydro One in accordance with the provisions of the *Transmission System Code*. Included will be the calculation of any cost contribution to Hydro One for the work required to complete the connection. RRR will finance and construct the Rainy River Powerline Project using its own resources which may include support from New Gold. As such, the Rainy River Powerline Project will have no adverse impact on other ratepayers. It is anticipated that the addition of the load from the RRP, once operational, will have a beneficial impact for other ratepayers through increased demand on the existing grid.
- 13) A wholesale license for participation in the IESO market will be submitted to the OEB under separate application. An application to the IESO for market participation will also be made in due course.
- 14) RRR requests the Board issue a Letter of Direction for publishing the Notice of Application and Hearing, and that a copy be posted on the website of the Applicant.
- 15) The Application is supported by written evidence which is pre-filed and may be amended and updated from time to time prior to the Board's final decision on this Application. RRR may seek meetings with Board Staff and other interested parties in an attempt to identify and reach agreement on issues arising out of this Application.
- 16) RRR requests this proceeding be conducted in writing.
- 17) RRR requests the Board issue a decision in this matter prior to July 31, 2014.

18) RRR requests that correspondence in this proceeding be conducted in English and that all correspondence should be directed to:

- a) The Applicant:
Address: Rainy River Resources Ltd.
c/o New Gold Inc.
200 Bay Street
Toronto, ON M5J 2J8

Telephone: Attention: Darcy Cowan
(416) 645-7281
Email: Darcy.Cowan@newgold.com
- b) The Applicant's Counsel:
Address: Aird & Berlis LLP
Suite 1800, Box 754
Brookfield Place, 181 Bay Street
Toronto, ON M5J 2T6

Telephone: Attention: Mr. Scott A. Stoll
(416) 865-4703
Fax: (416) 865.1515
Email: ssstoll@airdberlis.com
- c) Applicant's Consultant
Address: SanZoe Consulting Inc.
25 Priest Ave.
Minesing, ON L0L 1Y3

Telephone: Attention: Wayne Clark
(705) 728-3284
Fax: (705) 721-0974
Email: c.w.clark@sympatico.ca

19) RRR requests the Board issue Order or Orders:

- a) as necessary for the publication of notice for this proceeding and the scheduling of the hearing;
- b) granting leave to construct for the Rainy River Powerline Project pursuant to section 92 of the OEB Act;
- c) approving the proposed easement agreement pursuant to section 97 of the OEB Act;

- d) granting approval to cross Highway 97 pursuant to section 101 of the OEB Act; and
- e) such other relief as may be requested.

The attached is **Exhibit "D"** to the Affidavit of

Carol Thomas, sworn before me this

21st day of February, 2014.

A Commissioner for Taking Affidavits

ONTARIO ENERGY BOARD NOTICE

Rainy River Resources Ltd. has applied to the Ontario Energy Board to build a high-voltage transmission line.

[Learn More](#)

Rainy River Resources Ltd. is asking the Ontario Energy Board ("OEB") for permission to construct approximately 17 km of 230 kV electricity transmission line and associated facilities. The line would connect the company's Rainy River Mine in the Township of Chapple in the Territorial District of Rainy River in northwestern Ontario to the provincial power grid.

Rainy River Resources Ltd. has also filed with the OEB a form of agreement it offers to landowners to use their land for routing or construction of the proposed line and associated facilities.

A map of the proposed route for the transmission line is printed below.

Rainy River Resources Ltd.'s application to the OEB concerns construction of the proposed transmission line and associated facilities only. It does not concern the construction or operation of the Rainy River Mine project itself.

The OEB is an independent and impartial public agency. It will hold a public hearing to consider Rainy River Resources Ltd.'s request. During this hearing, the OEB will consider evidence and arguments by Rainy River Resources Ltd. and by individuals, municipalities and others whose interests would be affected.

The OEB hearing will consider specific issues required by law. The Ontario Energy Board Act specifies the issues the OEB is to consider in making its decision. If you wish to participate in the OEB hearing, it is important for you to understand what those issues are.

As required by the Ontario Energy Board Act the OEB will consider three issues:

- The interests of consumers with respect to prices and the reliability and quality of electricity service;
- In a manner consistent with the policies of the Government of Ontario, the promotion of the use of renewable energy sources; and
- The form of agreement that Rainy River Resources Ltd. offers to landowners affected by the route or location of the transmission line.

The OEB hearing is not the only approval process required before a line is built. For example, most transmission lines are subject to the Ministry of the Environment's Environmental Assessment process. The Board's review will only address the three factors outlined above and will not address other factors, such as environmental, health, aesthetics or property value impacts.

BE INFORMED

You have the right to information regarding Rainy River Resources Ltd.'s application. You can:

- Read Rainy River Resources Ltd.'s application on the OEB's website (See below under "Learn More")
- Sign up to be an observer, who will automatically receive documents for the hearing.

HAVE YOUR SAY

If you would be affected by the proposed transmission line, you may want to take a more active role in the hearing. You can:

- Send the OEB a letter with your comments, which will be considered during the hearing; or
- Ask the OEB for permission to be an active participant in the hearing (an intervenor). Intervenors can provide evidence, argue their positions and submit relevant questions to be answered by Rainy River Resources Ltd. (interrogatories). To be an intervenor, a party must be affected by the transmission line in a way that relates directly to the issues the OEB will consider. If you wish to be an intervenor, the OEB must receive your request by March 1, 2014.

LEARN MORE

To read the documents concerning this hearing please go to the OEB website www.ontarioenergyboard.ca, click on "Consumers" and enter file number EB-2014-0014 in the "Find an Application" box. You can also phone Robert Caputo at 1-888-632-6273 extension 632 with any questions.

Oral and Written Hearings

There are two types of OEB hearings - oral and written. The Board intends to use a written hearing for this case unless there is a good reason why an oral hearing is necessary. If you believe an oral hearing is necessary, you must provide written reasons to the OEB by March 1, 2014.

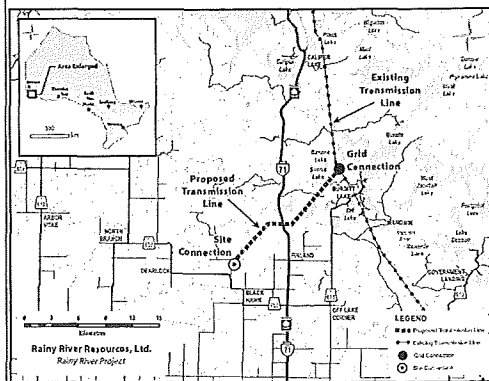

Privacy

If you write a letter with your comments, your name and the content of your letter will be put on the OEB's public record and the OEB website. However, your personal telephone number, address and email address will be removed. If you are a business, all your information will be public. If you apply to become an intervenor, all your information will be public.

This application was filed under sections 92 and 97 of the Ontario Energy Board Act, 1998 S.O. 1998, c.15, Schedule B.

Major revamp for local hotel

More from A1
and adding a sauna and hot tub, as well as revamping the banquet room to include carpeting and a crystal chandelier. The pair also are redoing the coffee shop, dining room, and bar areas.

"They have been gutted," Campbell said, explaining they will re-open with new names, a new look, and new services.

The noted the coffee shop will be called "Copper River Coffee Company," the dining room will be known as "Bistro Nordi," and the bar as "Aurora Bar and Grill."

"The coffee shop will be like a cafe with cappuccinos and lattes, the higher-end coffees, and then sandwiches," he remarked, adding it also will feature a bakery.

"So it will be a nice place to go for lunch or for coffee." This part of the facility also will house "River Wood Fire Pizza," which will be available for take-out and delivery.

"We're getting a wood fire pizza oven that's coming in from California," Campbell said. "So that's going to be something new and exciting for the area that no one else has."

"Bistro Nordi," meanwhile, will serve breakfast, lunch, and dinner.

"It will be an upper-casual dining room," Campbell noted, saying the new menu will feature higher-end burgers, in addition to steak, pasta, and salad.

"We're trying to stay away from fine-dining but give people some options," he explained, comparing the atmosphere of the restaurant to something like "Moxie's."

The bar area also will include food services.

"It will be a place where you

"We're making lots of improvement not only to the facility, but also the staff training; the atmosphere to create and capture a new guest clientele."

—Bryce Campbell

can come after work for a drink or some appetizers and watch the game, but still be able to promote sociable drinking to get that good mix," Campbell reasoned.

"So it's not just a bar anymore. We want to find the mix between a lounge and a bar."

"That's the ultimate goal," he added, noting they also will update the patio in the spring.

Campbell said they also hope to utilize the banquet and meeting facilities more than in the past.

"We'd like to start making that a larger revenue stream than it used to be," he remarked, noting they have the banquet room, which seats 300, as well as the meeting room and boardroom.

And he plans to put an emphasis on customer services for the new business.

"We're making lots of improvement not only to the facility, but also the staff training; the atmosphere to create and capture a new guest clientele," he stressed.

"We want to make it like it was 24 years ago," echoed Monique Gall of Rainy River, who will be managing the Copper River Inn and Conference Centre.

"We want to bring the hotel back to its glory days," agreed Campbell, saying despite the money he's putting into renovating the business, he feels it

is worth it. "The state of the economy here worries me a little but not a lot," he admitted, alluding to the recent shutdown of the paper mill here.

"It's devastating for everyone," he acknowledged. "But when you look at it from the outside, we see all of the good things that are still in town."

"I think the town has a very promising future," Campbell added, noting he expects the proposed gold-mining projects will help to restore what the mill has taken away.

"I'm sure the tough times will be short-lived for the town," he remarked, adding that while his new business won't create the number of jobs the mill did, he feels he will be helping out a little by hiring a staff of 50.

With an updated facility, Campbell conceded the room rates likely will increase—but will continue to remain competitive.

"I think it will be a very good value for what people get," he reasoned, noting there also will be some customer loyalty programs implemented.

And while they don't have an opening date set, Campbell said they're expecting to re-open under the new name sometime in March.

"We're hoping everyone will want to come check it out," he enthused.

Valentine goodies

Trish Law picked up some goodies at the annual Valentine's bake sale, which was hosted by the "Friends of the Library" on Friday at the Fort Frances Public Library Technology Centre.

—Heather Latter photo

Mill working on clean-up

More from A1
facility," he noted.

"The maintenance crew and the stationary engineers are working to do the clean-up, the site preservation, all of those efforts," Van Chau added, noting the woodland employees continue to manage the fibre needs of the company.

Looking past March 12, Van Chau said company management hasn't made any decisions regarding additional operational changes beyond what was announced in mid-January.

In response to a question about shutting down the slurr system at the mill in mid-April, Van Chau said that by then, the

weather should start to warm up.

He added the company has to continue to reassess what is necessary to protect the assets in order to be in a position to eventually restart them.

"Our focus is ensuring safety of the site, that environmental obligations are met, and that the assets are protected," he reiterated.

Van Chau also stressed the company continues to focus on repositioning the mill.

"What we're looking at is what can be done with the pulp assets? What can we do with the energy assets at the facility?"

"What are we doing in that

regard and is there any support we can get?" he remarked.

The price of kraft pulp is up right now—and that's why Resolute wants to find a way to reposition the pulp assets of the facility, Van Chau said.

"That's where we're at right now," he remarked. "We've got 150 employees who have been provided notice, and as you know in the community, that's after idling other machines."

"That's been a huge impact and we recognize that in the community, and we're trying to find solutions for the mill," he pledged.

ONTARIO ENERGY BOARD NOTICE

Rainy River Resources Ltd. has applied to the Ontario Energy Board to build a high-voltage transmission line.

Rainy River Resources Ltd.'s application to the OEB concerns construction of the proposed transmission line and associated facilities only. It does not concern the construction or operation of the Rainy River Mine project itself.

The OEB is an independent and impartial public agency. It will hold a public hearing to consider Rainy River Resources Ltd.'s request. During this hearing, the OEB will consider evidence and arguments by Rainy River Resources Ltd. and by individuals, municipalities and others whose interests would be affected.

The OEB hearing will consider specific issues required by law.

The Ontario Energy Board Act specifies the issues the OEB is to consider in making its decision. If you wish to participate in the OEB hearing, it is important for you to understand what these issues are.

As required by the Ontario Energy Board Act the OEB will consider three issues:

- The interests of consumers with respect to prices and the reliability and quality of electricity service;
- In a manner consistent with the policies of the Government of Ontario, the promotion of the use of renewable energy sources; and
- The form of agreement that Rainy River Resources Ltd. offers to landowners affected by the route or location of the transmission line.

The OEB hearing is not the only approval process required before a line is built.

For example, most transmission lines are subject to the Ministry of the Environment's Environmental Assessment process. The Board's review will only address the three factors outlined above and will not address other factors, such as environmental, health, aesthetics or property value impacts.

BE INFORMED

You have the right to information regarding Rainy River Resources Ltd.'s application. You can:

- Read Rainy River Resources Ltd.'s application on the OEB's website (See below under "Learn More")
- Sign up to be an observer, who will automatically receive documents for the hearing.

HAVE YOUR SAY

If you would be affected by the proposed transmission line, you may want to take a more active role in the hearing. You can:

- Send the OEB a letter with your comments, which will be considered during the hearing; or
- Ask the OEB for permission to be an active participant in the hearing (an intervenor). Intervenors can provide evidence, argue their positions and submit relevant questions to be answered by Rainy River Resources Ltd. (interrogatories). To be an intervenor, a party must be affected by the transmission line in a way that relates directly to the issues the OEB will consider. If you wish to be an intervenor, the OEB must receive your request by March 1, 2014.

LEARN MORE

To read the documents concerning this hearing please go to the OEB website www.ontarioenergyboard.ca/, click on "Consumers" and enter file number E8-014-0014 in the "Find an Application" box. You can also phone Robert Caputo at 1-888-632-6273 extension 632 with any questions.

Oral and Written Hearings

There are two types of OEB hearings - oral and written. The Board intends to use a written hearing for this case unless there is a good reason why an oral hearing is necessary. If you believe an oral hearing is necessary, you must provide written reasons to the OEB by March 1, 2014.

Privacy

If you write a letter with your comments, your name and the content of your letter will be put on the OEB's public record and the OEB website. However, your personal telephone number, address and email address will be removed. If you are a business, all your information will be public. If you apply to become an intervenor, all your information will be public.

This application was filed under sections 92 and 97 of the Ontario Energy Board Act, 1998 S.O. 1998, c.15, Schedule B.
