Dear Ms. McCutcheon:

**Re: Toronto Hydro-Electric System Limited  
Section 29 Application  
Board File Number EB-2013-0234**

This letter is in response to the Canadians for Safe Technology ("CST") request for late Intervenor status in the above noted proceeding.

The Board has reviewed your request and has determined that it will not grant late intervenor status to CST for the following reasons:

1. The Board has no legislative jurisdiction regarding the health effects of wireless attachments; and
2. The current proceeding involves a request by Toronto Hydro-Electric Systems Limited for the Board to cease regulating the rate for the attachment of wireless equipment to its distribution poles and any health impacts associated with wireless attachments are not in scope for this proceeding.

Yours truly,
