**Niagara-on-the-Lake Hydro Inc. 2014 COS Rate Application
OEB Case EB-2013-0155**

Dear Ms. Walli

NOTL Hydro yesterday submitted a draft Settlement Agreement in this Case to the Intervenor and Board Staff for their comment. We were advised by the Intervenor that due to their ongoing commitments in Settlement Conferences this week in other Cases, they would be unable to review the draft until this coming weekend. As a result, we would like to advise the Board that the target date for submission of the final Settlement Agreement to the Board is March 13, 2014. Procedural Order No. 3 indicated a due date of March 6, 2014. We hope that this delay does not cause any concerns for the Board.

Yours truly

Mike Galloway, President
