**Importance:** High  
**Sensitivity:** Confidential

To Whom It May Concern:

I have just learned from our local and television news that the natural gas companies have applied to the Ontario Energy Board to get a 40% increase in the price of natural gas to heat Ontario homes. This is unacceptable and very unfair since our wages and in particular my fixed pension income does not have an increase of 2%. PLEASE, PLEASE, PLEASE DO NOT APPROVE THIS REQUEST and PLEASE COMPLY WITH THE CONSUMERS who are struggling to pay heating costs now. I would appreciate your comments and response to my concern.

Thank you!

Glenda and Joe Fisher.
