**Re: Ottawa River Power Corporation  
2015 Distribution Rate Application  
EB-2014-0105**

Dear Ms. Walli:

Ottawa River Power Corporation (ORPC) is requesting that the Ontario Energy Board set its 2015 rates on a cost of service basis. ORPC completed its last rebasing in 2010 (File EB-2009-0165), therefore attaining eligibility per the February 20, 2014 letter to all licensed Electricity Distributors:

*“Distributors that have filed Annual IR Index applications for 2014 rates have not been included on the 2015 Rebasing List. These distributors can choose to move to the Price Cap IR, but would only be eligible to rebase for 2015 if their last cost of service application was for 2011 rates or earlier.”*

Ottawa River Power Corporation has been maintaining one of the lowest distribution rates in Ontario and continues foremost to keep costs to its customers at a minimum. It is with this thought that ORPC is seeking to move to Cost of Service rates in 2015. Having consistent rates is a priority and ORPC believes that rebasing in 2015 will alleviate larger increases in the future.

Ottawa River Power Corporation respectfully submits this request.

Kind Regards,

A handwritten signature in black ink that reads 'J Wilkerson'.
