Subject: Approved Enbridge Increase!

To Whom It May Concern:

It is absolutely **DISGUSTING** that the Ontario Energy Board has approved the suggested 40% increase by Enbridge.

HOW in the name of God, are the **majority** of people going to afford this?????????

Heating our homes in the winter is not an OPTION it is a NECESSITY.....WHY is this happening to a basic necessity????

Just use a **bit of common sense** and you will see that it is not right!! It is HORRIBLE, to do this to already struggling human beings!!

The cost of living is constantly increasing – with no control/no regulation what so ever! Yet people incomes are not increasing.

Just think about this, just for one moment....think about it!

Deeply Concerned Citizen.
