Subject: Congratulations

Dear Regulators:

By your latest decision in providing and approving a 40% increase to Enbridge for gas supply, when there is no competition, gives me ample reason to believe that you have no concern for any citizens in this province

How can you possibly justify a 40% increase, when all governments are saying "restraint", and are in fear of deflation creeping in. You are a saviour to that thought, no worry about deflation with your increases.

How are citizens on a fixed income, or those already teetering on a financial cliff suppose to come up with another 40% to have a basic right...HEAT.

You, as a group, and individually must take a hard look in the mirror and "do the right thing". DENY this corporation this easy money. Protect the citizens of YOUR province.

Ian Robertson
