Subject: Gas Increase

Dear Sir/Madam

I have just read with dismay that the energy Board has granted an unbelievable interim increase to Enbridge for their gas prices, effective April 1,2014. Do you realize that many persons are on fixed incomes, and cannot afford this unreasonable increase, or do you really care?

I could understand a 3% or 4% increase, but this cannot be tolerated, not is there any reason for this. Not long ago Enbridge stated they would not have to increase the gas prices this year, so what happened on the period of a few short months?

I implore you to reconsider this horrendous hike, which really amounts to highway robbery

Regards
Brenda Hallihan
