I am very upset that the Board has approved Enbridge's request to hike gas prices by 40%. I have recently lost my job after 14 years and I am struggling to find a job despite all of my experience. It is impossible to live in Vaughan and afford the cost of living but to be slapped with an increase of 40% is just unfathomable. Please reconsider, my family will not be able to afford to live here with the situation that we are facing. I am pleading along with so many other Ontario residents to please reconsider.

Sincerely
Reesa Rosen
