Hello,  
We have received your correspondence and will be replying in writing to you within the 30 day period as stated in the letter.  
As the home owner living nearest to the site, (first home north of Gray Road) we are very disappointed in this finding. We purchased this property in August of 2012 with the understanding from both our realtor and the City of Kawartha Lakes that we would not have to deal with this issue.  
In the past year we have spent time and money putting life back into the old farm. That investment is now diminished due to the proposed wind farm that will literally be in our back yard. Our resale value is gone and the health of our family and animals in now in jeopardy. For us, this will be life changing and we would have appreciated a more personal approach to this. Maybe if someone actually came and visited our property and seen just how physically close we will be to the site, they might understand our concerns a little more. It looks a lot different on paper than it does in real life.  
With all that being said, you can expect a more formal letter in the next few days as we gather our thoughts.

Thank you  
Rob and Sherry-Anne Foster
