Dear Ms. Walli:

**Re: Proposed Amendments to the Distribution System Code Regarding Minimum Requirements that Distributors must include in their Conditions of Service in Relation to Unmetered Loads
Submission of the Coalition of Large Distributors
Board File No. EB-2012-0383**

On March 20, 2014, the Ontario Energy Board (the "OEB" or the "Board") issued a Notice of Proposal to Amend a Code notifying interested parties that the OEB intended to amend the Distribution System Code (the "DSC") to indicate the minimum requirements that distributors must include in their Conditions of Service in relation to unmetered loads.

The Coalition of Large Distributors (the "CLD") consisting of Enersource Hydro Mississauga Inc., Horizon Utilities Corporation, Hydro Ottawa Limited, PowerStream Inc., Toronto Hydro-Electric System Limited, and Veridian Connections Inc. thank the Board for this opportunity to provide comments.

The CLD is supportive of these proposed changes. The CLD will revise its respective Conditions of Service as required once the DSC amendments are finalized by the Board. It is believed that these changes will assist distributors to formalize the framework which underpins the billing of unmetered loads, and result in improved communication with unmetered load customers.

The CLD appreciates the opportunity to review these proposed changes before they are implemented. Should you have any questions, please do not hesitate to contact the undersigned.

Yours truly,

[Original signed on behalf of the CLD]
