To Whom It May Concern

My husband and myself are on a fixed income. My 88 year old widowed mother is also on a fixed income. Our income does not increase 40%. Is the Ontario Energy Board not suppose to look after our best interests?

Why is Enbridges gas increase more than their competitors? We need your assistance in this matter because I do not now how we are going to pay for such a high increase in our gas bill.

Yours truly

Jan Roscoe
