Dear Mr. Detlor,

Re: EB 2013-0416 HDI intervention request in Hydro One Networks Inc. Rate Application

The Ontario Energy Board received your application for intervenor status for the Haudenosaunee Development Institute (HDI) dated February 15, 2014 in the EB-2013-0416 proceeding. The Board also received a letter objecting to your request from Hydro One Networks Inc. By way of Procedural Order No. 1, the Board invited HDI to respond to the objection by March 26, 2014. The Procedural Order was emailed to you on March 14, 2014.

In the absence of a response to HONI's objection or any correspondence asking for more time to respond to the objection, the Board will not give further consideration to HDI's request at this time.

If HDI wishes to pursue its request and seek late intervenor status by way of notice of motion, you should be aware of the Board's Rules with respect to late intervention, including the usual condition that the late intervenor must accept the record as it stands at the time of the late intervention request.

Yours truly,
