Re: Enbridge Gas Distribution Inc. ("Enbridge")
EB-2011-0323 - Alliston Reinforcement Project
Conditions of Approval – Final Monitoring Report

In Section 3.3 of the Conditions of Approval of the Ontario Energy Board's ("Board") Decision dated January 23, 2012, the Order requires Enbridge to file a final monitoring report within 15 months of the in-service date of the project which would make the report due to the Board by March 19, 2013. As it will be difficult to conduct a proper assessment during winter months by letter dated December 18, 2013, Enbridge requested an extension until May 2014 to file the final monitoring report.

However, due to the extraordinary winter many of the areas are still covered in snow and road maintenance has caused large amounts of gravel and sand to be deposited along the right-of-way next to where Enbridge has seeded and remediated. In order to conduct a proper assessment of the area affected by the project Enbridge is requesting approval to file the final monitoring report by June 30, 2014.

Any future developments will be communicated to the Board

If you have any questions, please contact the undersigned.

Yours truly,

(Original Signed)

Stephanie Allman
Regulatory Coordinator
