**Re: Enbridge Gas Distribution Inc. (“Enbridge”)
EB-2012-0382 – Durham York Energy Centre Pipeline
Conditions of Approval – Interim Monitoring Report**

On March 28, 2013, the Ontario Energy Board (the “Board”) issued the Decision and Order for the above noted proceeding. The Board’s Decision and Order included as Appendix “A” the Conditions of Approval for the project.

In Section 3.1 of the Conditions of Approval, the Board requires Enbridge to file an Interim Monitoring Report within six months of the in-service date of the project. The Interim Monitoring Report would then be due by May 21, 2014. Due to the extraordinary winter many of the areas are still covered in snow and road maintenance has caused large amounts of gravel and sand to be deposited along the right-of-way next to where Enbridge has seeded and remediated. In order to conduct a proper assessment of the project area Enbridge is requesting approval to file the Interim Monitoring Report by June 30, 2014.

Any future developments will be communicated to the Board.

If you have any questions, please contact the undersigned.

Sincerely,

[Original Signed By]
