Re: OEB Consultation
Service Area Amendments and MADDs Rate Making Policy
Board File No. EB-2014-0138

Dear Ms. Walli:

I am writing pursuant to the Board's letter dated March 31, 2014 regarding the above consultation to advise the Board of AMPCO's interest in providing written comments on the staff Discussion Paper.

AMPCO's Interest

AMPCO is a not-for-profit consumer interest advocacy organization. AMPCO's members represent Ontario's major industries: forestry, chemical, mining and minerals, steel, petroleum products, cement, automotive and manufacturing and business consumers in general. AMPCO members are major investors, major employers and a major part of communities in which we operate, across Ontario.

AMPCO and its member companies are well known to the Board. AMPCO participates in many proceedings, working groups, consultations and initiatives of the Ontario Energy Board in which matters relevant to Ontario's large electricity consumers are being addressed.

AMPCO's interest in the Board's regulation of local distribution and transmission companies relates generally to the interests of consumers with respect to price, adequacy, reliability and quality of electricity service, and, more particularly, to how costs are allocated to, and rates are designed to recover costs from, industrial customers.

AMPCO participated in the February 2013 stakeholder consultation related to Electricity Distributor Efficiency and is interested in the further development of Board policies in this area any benefits and costs to ratepayers.

Costs

We respectfully request that the Board please confirm AMPCO's eligibility for an award of costs in this matter. AMPCO has been granted intervenor cost awards in other OEB proceedings.
