COMMENTS - EB-2013-0442 FOR DETERMINATION OF LOCATION  
OF DISTRIBUTION FACILITIES WITHIN ROAD ALLOWANCES  
OWNED BY THE CITY OF KAWARTHA LAKES

To:  
The Board  
Ontario Energy Board  
P.O. Box 2319  
27th Floor  
2300 Yonge Street

This submission is in support of the intervenors and a request  
that the application EB-2013-0442 FOR DETERMINATION OF  
LOCATION OF DISTRIBUTION FACILITIES WITHIN ROAD  
ALLOWANCES OWNED BY THE CITY OF KAWARTHA LAKES  
originally filed on January 27th, 2014 and then re-filed on March  
28th, 2014 be set aside.

This submission also supports the Cost Request under cost  
eligibility set under the Ontario Energy Board's Practice Direction  
on Costs Award. Those seeking intervenor status have an  
"interest in land that is affected by the process", as per section  
3.03 of the Practice Direction on Costs Awards.

The Ontario Energy Board is statutorily obliged to ensure that any  
proposed work is in the public interest and in the interest of  
consumers with respect to the reliability and quality of the  
electricity services as well as to ensure generation of electricity  
from renewable energy sources is in a manner consistent with the  
policies of the Government of Ontario. The Government of  
Ontario policy regarding renewable energy projects such as the  
Sumac Ridge project includes: a streamlined approvals process  
with service guarantees for renewable energy projects  
while ensuring that high safety and environmental standards are  
met".

It is requested that application EB-2013-0442 be set aside since  
it is not in the public interest nor serves the best interest of the

consumer. The Gray Road transmission line and a distribution line crossing Wild Turkey Road, components of the Sumac Ridge project, will not ensure reliability and quality of electricity services and also fails to meet high safety and environmental standards as set under government policy.

Yours truly,

Bill Burnett
