Comments re: File # EB-2013-0442 for determination of location of Distribution Facilities within Road Allowances owned by The Municipality of Kawartha Lakes.

Turbine # 2 in the Sumac Ridge project has been identified as a navigation hazard by the Peterborough Airport. To allow turbine construction in this area is dangerous and not logical.

The Cham Shan Temple project in the area of Bethany is a huge world class facility and may not go forward if turbines are erected in this area. It would be an incredible shame if the Temple project does not proceed because of an ill-conceived policy of Wind Turbine proliferation.

Thankyou, Doug Metcalf
