On April 30, 2014, the Ontario Energy Board (the "Board") received Enbridge Gas Distribution Inc.'s ("Enbridge") and Union Gas Limited's ("Union") joint application (the "Application") seeking approval for new and updated demand side management ("DSM") measures.

In the DSM Guidelines for Natural Gas Utilities (EB-2008-0346), the Board directed the utilities to make an annual application to update approved input assumptions and encouraged the utilities to file a joint application.

This Application by Enbridge and Union is made, in consultation with the Technical Evaluation Committee ("TEC"), to update the common Table of Measure Assumptions and Substantiation Documents which is used when evaluating DSM programs. The Application includes: updates to several measure assumptions; the current, approved measure assumptions; and, corrections to clerical errors or omissions in the 2012 measure assumptions update application (EB-2012-0441). The TEC supports the updates to the specific measure assumptions as set out in the Application.
