**Re Milton Hydro Distribution Inc., Distribution Licence ED-2003-0014
Z-Factor Application EB-2014-0162
Intervenor Request of Energy Probe Research Foundation**

Milton Hydro Distribution Inc. ("Milton Hydro") is in receipt of an application by Energy Probe Research Foundation ("Energy Probe") for intervenor status in Milton Hydro's application for approval of a Z-Factor Rate Rider for recovery of ice storm related restoration costs, Ontario Energy Board ("OEB") file number EB-2014-0162.

In the application Energy Probe states that they "will be representing its residential customer supporters in Ontario, which we have some number of thousands, and also representing a broader concern with respect to the overall financial health and operational integrity of our utilities. Energy Probe will be intervening on issues which the Foundation believes to be in the residential ratepayer interest."

Energy Probe states that they represent "some number of thousands" of residential customer supporters in Ontario. Of the 4.4 million residential customers in Ontario Milton Hydro provides distribution service to some 31,300 residential customers. Milton Hydro submits that this application by Energy Probe is very broad in nature and does not identify a representative of any specific residential customer group in Milton Hydro's distribution service area or the specific scope or interest in Milton Hydro's Z-Factor Application.

Milton Hydro respectfully requests that Energy Probe identify the specific residential customer group(s), from Milton, that have requested Energy Probe to intervene on their behalf and to provide any correspondence between the specific residential customer group and Energy Probe related to Energy Probe's intervention.

Milton Hydro submits that the requested information will support Energy Probe's application for intervenor status on behalf of Milton Hydro's residential customers.

Should you require further information or clarification please contact me at 289-429-5212 or cameronmckenzie@miltonhydro.com .

Respectfully submitted,

Cameron McKenzie, CGA
Director, Regulatory Affairs
