Dear Ms. Walli:

**Re: Environmental Defence Correspondence
EB-2013-0321 – Ontario Power Generation Inc. (“OPG”)
2014-2015 Payment Amounts Application**

I am writing pursuant to Procedural Order #8 to request an order that the response to undertaking JT2.2 be placed on the public record.

Environmental Defence objects to the confidential treatment of undertaking JT2.2 on the following grounds:

- (a) The response contains information about various cost overrun scenarios. The release of this cost scenario information will not prejudice OPG’s economic or negotiating position.
- (b) Similar information was released in the response to Environmental Defence interrogatory #11.
- (c) Environmental Defence will be asking questions about this undertaking response during the hearing. Confidential treatment of the information will cause hassle and delay for hearing participants.
- (d) Cost overruns are an issue of significant public concern. The importance of openness and transparency is therefore increased.

In the alternative, if the “contingency” amounts must remain confidential, Environmental Defence requests that only the contingency amounts be redacted. Note that Environmental Defence did not actually ask that the contingency amounts be broken out in this undertaking response and it is not clear why OPG has done so.

Please advise if anything further is required or would be of assistance.

Yours truly,

A handwritten signature in blue ink, appearing to read 'Kent Elson', with a stylized, cursive-like script.
