AMENDED APPLICATION**

Please find accompanying this letter, two (2) copies of the amended Exhibits of API's 2015 Electricity Distribution Rate Application and an amended 2015 Cost of Service Checklist. Coincidentally with this written submission, a PDF version of the complete application has been filed via the Board's Regulatory Electronic Submission System.

The amended Exhibits are described as follows:

Exhibit 1 Tab 3 Schedule 1

The narrative has been updated to provide continuity with The Distribution System Plan provided in Exhibit 2 Tab 3 Schedule 1.

Exhibit 3 Tab 1 Schedule 2

This Exhibit has been updated to include customer and load data for 2009 and 2010 in the historical period. Both actuals and weather normalized data has been provided.

Exhibit 4 Tab 2 Schedule 2

The Exhibit has been updated to include detailed explanations of the cost drivers in Appendix 2-JB.

Exhibit 6 Tab 1 Schedule 3

The Exhibit has been updated to distinguish between the revenue deficiency detailed in Exhibit 6 Tab 1 Schedule 1 and the difference that exist between the 2015 revenue requirement and the 2011 Board approved revenue requirement.

The 2015 Cost of Service Checklist has been amended to provide more detailed evidence references and notes. The amendments are limited to the Evidence Reference and Notes column and are highlighted in red. An electronic version of the amended 2015 Cost of Service Checklist accompanies this submission.

These amendments have not impacted the financial evidence contained in the original submission, dated May 12, 2015, and do not impact upon the proposed 2015 revenue requirement.
