

Attachment 1c-1
White Pines Wind Project – Project Description Report, September 2012
Figure 4.0 Natural Heritage Features and Water Bodies

Legend

	Study Area
	300m Zone of Investigation
Proposed Project Components	
	Wind Turbine (Blade Sweep)
	Access Road
	Collector Line
	Interconnection Line
	Substation
	Storage Area
Existing Features	
	Highway / Expressway
	Road
	Railway
	Watercourse (as per MNR base mapping)
	Building
	Waterbody (as per MNR base mapping)
	Unevaluated Wetland
	REA Water Body
	Not a REA Water Body
Natural Features- Records Review	
	Black Creek Valleyland
	Provincially Significant Wetland
	Non-Provincially Significant Wetland
	Wildlife Area
	Great Blue Heron Colony/
	Osprey Nest 300m Buffer
Area of Natural and Scientific Interest (ANSI)	
	Earth Science, Provincially Significant
	Earth Science, Regionally Significant
	Life Science, Provincially Significant
	Life Science, Regionally Significant
	Candidate Life Science, Provincially Significant
