Dear Ms. Walli:

**Re: wpd White Pines Wind Incorporated
EB-2013-0339**

On September 18, 2013, wpd White Pines Wind Incorporated (“wpd”) filed an application for leave to construct transmission facilities (the “**Application**”) with the Ontario Energy Board (the “**Board**”) associated with a renewable wind energy generation facility proposed to be developed by wpd in Prince Edward County, Ontario.

Since filing the Application, wpd has engaged in discussions with the Ministry of Transportation (“**MTO**”) regarding the location of the transmission line on a portion of the provincial highway located near the site of the renewable energy facility. As a result of these discussions, wpd and the MTO have agreed on the location of the transmission line within the roundabout located at Highway 33 near County Road 1, thereby requiring an update to the pre-filed evidence in support of the Application. Attached to this letter are additions to wpd’s pre-filed evidence. The additions include:

- Exhibit A, Tab 1, Schedule 1 – Exhibit List
- Exhibit B, Tab 2, Schedule, 4 – Project Maps and Cross-Sections
 - Figure 6: Map – Proposed Transmission Route Along Roundabout
- Exhibit B, Tab 2, Schedule 6 - Plan of Survey For Roundabout
