ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act 1998*, Schedule B to the *Energy Competition Act*, 1998, S.O. 1998, c.15;

AND IN THE MATTER OF an Application Ontario Power Generation Inc. for an order or orders approving payment amounts for prescribed generating facilities commencing January 1, 2014.

SCHOOL ENERGY COALITION CROSS-EXAMINATION COMPENDIUM (Panel 1 – Overview, Business Transformation)

Jay Shepherd P.C. 2300 Yonge Street, Suite 806 Toronto, Ontario M4P 1E4

Jay Shepherd Mark Rubenstein

Tel: 416-483-3300 Fax: 416-483-3305

Counsel to the School Energy Coalition

Summary of EB-2013-0321 Application

	Nuclear	Previously Regulated Hydroelectric	Newly Regulated Hydroelectric	Totals
Revenue at Current Rates	\$4,874.4 ¹	\$1,471.1 ¹	\$501.2 ²	\$6,846.7
Proposed Revenue Requirement	\$6,395.4 ¹	\$1,757.8 ¹	\$853.2 ³	\$9,006.4
Deficiency	\$1,521.0	\$286.7	\$352.0	\$2,159.7
Percentage Increase	31.20%	19.49%	70.23%	31.54%

^{1.} N2-1-1, pp. 11-12 2. N2-1-1, p. 13 and 2013 Annual Report, p. 15: 17.9 Twh @ \$28/Mwh 3. N2-1-1, p. 13

Electricity Generation

Electricity generation for the years ended December 31 was as follows:

(TWh)	2013	2012
Regulated – Nuclear Generation Regulated – Hydroelectric Unregulated – Hydroelectric Unregulated – Thermal	44.7 18.9 13.9 2.8	49.0 18.5 12.1 4.1
Total OPG electricity generation	80.3	83.7
Total electricity generation by all other generators in Ontario	74.2	67.6

The decrease in 2013 from 2012 was mainly due to lower electricity generation from the Regulated – Nuclear Generation and the Unregulated – Thermal segments. Reduced generation in these segments was partially offset by higher hydroelectric generation. The factors impacting OPG's generation during 2013 are as follows:

- extensions to planned outages at the Pickering Nuclear GS and the Darlington Nuclear GS were the main factors causing the decrease in nuclear generation
- ceasing operation of coal-fired units at the Lambton and Nanticoke generating stations in 2013, in accordance with the Shareholder declaration issued in March 2013, resulted in lower thermal generation
- higher water levels and the in-service of the Niagara Tunnel contributed to higher hydroelectric generation
- an increase in Surplus Baseload Generation (SBG) conditions in 2013, described below, unfavourably affected the electricity generation by OPG's hydroelectric generating stations.

OPG's operating results are affected by changes in demand resulting from variations in seasonal weather conditions and changes in economic conditions. Ontario's primary demand was 140.7 TWh in 2013, down slightly from 141.3 TWh in 2012. Baseload supply surplus to Ontario demand continued to increase in 2013 as a result of lower primary demand combined with increased baseload generation, mainly from Bruce A Units 1 and 2 and new wind and solar capacity. The surplus to the Ontario market is managed by the Independent Electricity System Operator (IESO) through market mechanisms, including generation exports, dispatching generation offline due to low weighted average hourly Ontario electricity prices (HOEP). Dispatching generation offline could result in spilling water at hydroelectric stations, reducing generation from nuclear facilities, and reducing grid-connected renewable resources. As dispatching hydroelectric units down to reduce production is the first measure the IESO uses to reduce SBG, OPG's hydroelectric generation was significantly affected by SBG management in 2013, reducing generation by approximately 1.7 TWh. The net income impact of the SBG conditions on currently regulated hydroelectric generating stations was offset by regulatory variance accounts.

Average Sales Prices and Average Revenue

The average sales prices and average revenue for the years ended December 31 were as follows:

(¢/kWh)	2013	2012
Weighted average HOEP	2.6	2.4
Regulated – Nuclear Generation ¹ Regulated – Hydroelectric ¹ Unregulated – Hydroelectric ¹ Unregulated – Thermal ¹	5.7 4.0 2.8 2.7	5.5 3.5 2.4 2.6
Average revenue for OPG ² Average revenue for all electricity generators, excluding OPG ³	5.7 9.9	5.2 8.6

Average sales prices are computed as net generation sales or spot market sales divided by net generation volume.

The increase in the average sales prices for OPG's regulated segments during 2013 was a result of the OEB's approval of new rate riders, effective January 1, 2013. These rate riders were established to collect amounts that were previously recorded in variance and deferral accounts. The net income impact of these rate riders was offset by an increase in depreciation and amortization expenses. For further details, refer to the disclosure under the headings, Revenue Mechanisms for Regulated and Unregulated Generation and Recent Developments.

Average sales prices for OPG's unregulated generation segments also increased during 2013, largely due to an increase in the HOEP. During 2013, the HOEP increased due to the impact of higher market demand and higher natural gas prices, partially offset by the impact of higher non-OPG nuclear generation.

Cash Flow from Operations

Cash flow provided by operating activities for 2013 was \$1,174 million, compared to \$876 million for 2012. The increase in operating cash flow was primarily the result of:

- higher cash receipts from generation revenue after the new rate riders, established by the OEB, were
- a lower voluntary contribution to the pension fund in 2013
- lower fuel purchases, partially offset by
- higher OM&A expenses in 2013.

Funds from Operations Interest Coverage

Funds from Operations (FFO) Interest Coverage is an indicator of OPG's ability to meet interest obligations from operating cash flows. FFO Interest Coverage was 2.8 times for 2013 and 2.2 times for 2012. The FFO Interest Coverage increased primarily due to higher cash flows provided by operating activities.

The FFO Interest Coverage is not a measure in accordance with US GAAP. It should not be considered as an alternative measure to net income, cash flows from operating activities, or any other measure of performance under US GAAP. OPG believes that this non-GAAP financial measure is an effective indicator of performance and is consistent with the corporate strategy to operate on a financially sustainable basis. The definition and reconciliation of FFO Interest Coverage can be found under the headings, Key Generation and Performance Indicators and Supplementary Non-GAAP Financial Measures, respectively.

Average revenue for OPG is comprised of regulated revenues, market based revenues, and other energy revenues primarily from agreements for the Nanticoke, Lambton, Thunder Bay, and Lennox generating stations, and revenue from hydroelectric ESAs.

Revenues for other electricity generators are calculated as the sum of hourly Ontario demand multiplied by the HOEP, plus total global adjustment payments, plus the sum of hourly net exports multiplied by the HOEP, less OPG's generation revenue.

JT2.14 Attachment 1 – List of Major Benchmarking (2010 – 2013)

	Name of Study	Timing	Author	Purpose
1.	OPG Nuclear Benchmarking Reports	2009 - 2011	OPG /Scott Madden Management Consultants	To compare OPG Nuclear's performance to that of nuclear industry peer groups both in Canada and worldwide.
2.	Nuclear Staffing Benchmarking Analysis	2012	Goodnight Consulting Inc	To benchmark OPG nuclear staff levels against other North American nuclear operators.
3.	Uranium Procurement Program Assessment	2011	Longenecker & Associates	An external assessment of OPG's uranium procurement assessment.
4.	Corporate Executive Board General Counsel Roundtable Legal Department Spending and Staffing Benchmarking	2011		Internal review of comparative organizations to identify any gaps.
5.	Recharging Our Workforce	2011	Electricity Sector Council	To mitigate against a reality of the electricity sector in Canada losing 30% of its workforce between 2007-2012.
6.	Review of Dam Safety Program	2007- 2011	Dam Safety Advisory Panel	To provide: • External oversight of OPG's Dam and Public Safety Program; • An independent viewpoint into the strategic and operational risks and emerging issues regarding safety of OPG's dams; • Advice on priorities and opportunities of Dam Safety Program performance improvements.
7.	Hydroelectric Generation Benchmarking Program	on-going	Navigant Consulting Inc.	To provide: • Hydroelectric generation costs and performance reviews; • Opportunity to network, exchange experiences and discuss best practices.

2.2 Pension and OPEB Costs

Relative to the amounts reflected in the first Impact Statement, OPG is forecasting an overall decrease of \$278.7M in its test period revenue requirement related to pension and OPEB, inclusive of the related income taxes. This consists of a \$206.9M decrease in forecast pension and OPEB costs for the prescribed facilities as shown on Chart 1, which has been reproduced from Ex. L, Tab 6.8, Schedule 1 Staff-112, and a \$71.8M decrease in income taxes as presented in Chart 2, also reproduced from Ex. L, Tab 6.8, Schedule 1 Staff-112. The income tax impact of the updated pension and OPEB forecast is calculated in the same manner as discussed in Ex. N1-1-1, section 2.2.4.

5

6

7

8

The updated forecast of OPG's total pension and OPEB costs was determined by OPG's independent actuary, AON Hewitt ("AON"), using the same methodology applied in determining the costs reflected in the pre-filed evidence and the first Impact Statement. The economic assumptions and pension plan asset values underpinning the updated forecast reflect market conditions as at December 31, 2013. AON's report on the updated estimates of OPG's 2014 and 2015 pension and OPEB costs is provided in Attachment 1.

9

11

12

13

14

The main drivers of change to the pension and OPEB costs compared to the first Impact Statement are higher discount rates as at December 31, 2013 and the adoption of a new scale for future mortality improvement issued by the Canadian Institute of Actuaries ("CIA") in February 2014. The updated forecast of 2014 and 2015 costs reflects the results of a

DRIVERS OF DEFICIENCY

Chart 1 Previously Regulated Hydroelectric, 2014-2015 Test Period Updated to Reflect the Impact Statement (Ex. N1-1-1)

·	(\$M)	Notes (updated comments in Italic)
EB-2010-0008 Approved Revenue Requirement	1,419.2	Ex. I1-1-1, Table 2 (no change)
Increase in Cost of Capital	133.8	Higher forecasted long-term debt costs and ROE due to increased rate base as a result of the Niagara Tunnel project coming into service (no change)
Increase in OM&A	39.3	Increases in Base OM&A (Ex. F1-2-1, Ex. F1-2-2) and Project OM&A (Ex. F1-3-2) (rise in the Allocation of Centrally Held Costs due to increased Pension/OPEB Costs)
Increase in Depreciation & Amortization	33.4	Primarily due to the Niagara Tunnel project coming into service (Ex. F4-1-1) <i>(no change)</i>
Decrease in Ancillary and Other Revenue	36.3	Lower operating reserve market prices and lower regulation service revenues (Ex. G1-1-1 and Ex. G1-1-2) (increased Ancillary Services revenue)
Increase in Income Taxes	56.5	Increased Regulatory Taxable Income, mainly due to higher rate base due to the Niagara Tunnel coming into service (Ex. F4-2-1, Table 5) (increased Pension/OPEB Costs)
Other	21.2	Includes differences in Property Taxes and Gross Revenue Charge (increased GRC due to higher forecast production levels)
Total Change in Revenue Requirement	320.5	
Proposed Revenue Requirement for 2014 – 2015 Test Period	1,739.7	Ex. N1-1-1, Table 1
Revenue at Current Rates	1,471.1	Using forecast production levels for the test period (41.1 TWh) (higher forecast production due to increase in water availability)
Revenue Requirement Deficiency	268.6	Ex. N1-1-1, Table 4

Chart 2 Nuclear Deficiency, 2014-2015 Test Period Updated to Reflect the Impact Statement (Ex. N1-1-1)

Updated to Reflect the Impact Statement (Ex. N1-1-1)				
	(\$M)	Notes (updated comments in Italic)		
EB-2010-0008 Approved Revenue Requirement	5,251.5	Ex. I1-1-1, Table 3 <i>(no change)</i>		
Decrease in Cost of Capital	(56.1)	Lower long-term debt costs and ROE (no change)		
Increase in the Allocation of Centrally Held Costs	468.0	Primarily due to an increase in pension and OPEB costs (Ex. F4-4-1) (increased Pension/OPEB Costs)		
Increase in Outage OM&A	177.5	Mainly due to the 2015 Vacuum Building Outage (Ex. F2-4-2) (no change)		
Increase in the Allocation of Support Services Costs	349.8	Due to the transfer of nuclear functions to centre-led corporate groups as part of BT, offset by similar reduction in nuclear costs (Ex. F3-1-2) <i>(no change)</i>		
Decrease in Base OM&A	(120.4)	Transfers of costs to corporate groups partially offset by labour cost escalation and higher pension and OPEB costs (Ex. F2-2-1) <i>(no change)</i>		
Increase in Depreciation & Amortization	70.5	Increase in Asset Retirement Cost due to ONFA (Ex. F4-1-1) (no change)		
Decrease in Bruce Lease Net Revenues	190.8	Increase in Bruce Costs is primarily due to ONFA (Ex. G2-2-1) <i>(no change)</i>		
Increase in Income Taxes	86.1	Higher regulatory taxable income is primarily due to pension and OPEB costs (Ex. F4-2-1, Table 5) (decreased due to higher Pension/OPEB Costs)		
Other	231.3	Includes the EB-2010-0008 compensation disallowance of \$145M as well as differences in Fuel, Property Taxes, other OM&A Costs and Ancillary and Other Revenue (increase due to higher Pension/OPEB Costs offset by lower nuclear fuel costs)		
Total Change in Revenue Requirement	1,397.3			
Proposed Revenue Requirement for 2014 – 2015 Test Period	6,648.8	Ex. N1-1-1, Table 1		
Revenue at Current Rates	4,900.2	Using forecast production levels for the test period (95.1 TWh) (lower forecast production)		
Revenue Requirement Deficiency	1,748.6	Ex. N1-1-1, Table 4

Undertaking

To provide a version of the table in response to CCC interrogatory 20 showing regulated operations only.

UNDERTAKING JT2.10

Response

The correct reference is to the table in response to CCC 22 (Ex. L-6.8-4 CCC-022). Ex. L-6.8-4 CCC-022 shows the calculation of the estimated \$700M savings resulting from the headcount reduction target of 2,000 employees, for all of OPG, by the end of the test period.

A version of the Ex. L-6.8-4 CCC-022 table based on the target reduction of 1,300 employees by the end of the test period applicable to regulated operations only is shown below.

	Actual		BP 2013 - 2015			
	2011	2012	2013	2014	2015	Total
Headcount reductions	328	368	124	249	223	1,292
(\$M)						
2011 Savings	25	51	51	51	51	229
2012 Savings		26	52	52	52	181
2013 Savings			14	29	29	72
2014 Savings				21	41	62
2015 Savings					19	19
Total	25	77	117	152	191	562

Under the BT initiative, OPG has a staff reduction target of approximately 1,300 employees for the regulated operations by the end of 2015 (excluding DRP and new nuclear). The estimated cost savings are approximately \$152M and \$191M in the test period and the corresponding headcount reductions are 249 and 223 respectively.

- 1 5, attachment 1. This is the -- tell me whether this is
- 2 right. This is your original presentation to a committee
- 3 of the board of directors on the BT project, right? In
- 4 2011?
- 5 MR. BARRETT: Yes, this is the BT plan that was
- 6 presented to OPG's board of directors.
- 7 MR. SHEPHERD: Mr. Barrett, was it you who made this
- 8 presentation?
- 9 MR. BARRETT: No, it was not.
- 10 MR. SHEPHERD: Do you know who it was?
- 11 MR. BARRETT: I wasn't present at the meeting, so I
- 12 don't.
- MR. SHEPHERD: I am looking now at the fourth slide,
- 14 and the first bullet talks about creating an integrated
- 15 operating model.
- Now, do I understand -- well, maybe you can describe
- 17 to me: What is that integrated operating model and how is
- 18 it different from the way you were doing things before?
- 19 Just give us the brief summary.
- 20 MR. BARRETT: The central feature of this new model is
- 21 the movement to what we call a centre-led organization, to
- 22 realize scale efficiencies and to promote greater alignment
- 23 and accountability.
- 24 MR. SHEPHERD: So that is different from an
- 25 organization which is -- in which you have sort of one
- 26 group that operates semi-independently, semi-autonomously,
- 27 to run Darlington, let's say?
- 28 MR. BARRETT: Not quite. Perhaps a way to understand

- 1 it is by way of example.
- 2 So in the prior world, we would have had a corporate
- 3 public affairs group and we would have had public affairs
- 4 staff in the hydrothermal business unit, and in the nuclear
- 5 business unit.
- 6 In the centre-led organization, there is one public
- 7 affairs organization and kind of direction is given largely
- 8 from the centre to promote consistency. By moving to the
- 9 centre-led organization, we're realizing scale
- 10 efficiencies.
- 11 MR. SHEPHERD: All right. So then a little farther
- 12 down it says: "Ownership of the execution transitions to
- 13 the ELT."
- 14 And "ELT" is executive leadership team?
- 15 MR. BARRETT: That's correct.
- MR. SHEPHERD: So what does that mean, "ownership of
- 17 the execution transitions to the ELT"?
- 18 MR. BARRETT: One of the things that makes these type
- 19 of initiatives successful is to move it from the project
- 20 initiating team into the real business. So you need to
- 21 make the real business leaders accountable for the
- 22 execution and success of --
- 23 MR. SHEPHERD: Oh, so this is not part of your
- 24 integrated operating model; this is actually how you are
- 25 going to roll out BT? And the answer is that it is not
- 26 going to be a project group; it is going to be ELT that
- 27 runs it?
- 28 MR. BARRETT: Not quite. There is still a project

- 1 group, but again, to make it real for the business, the
- 2 senior leadership team has to buy in and drive the business
- 3 transformation through their own business units.
- 4 And they're accountable for the success of BT within
- 5 their business units.
- 6 MR. SHEPHERD: All right. So then on the next page,
- 7 you have a sort of a schematic of this. And the only thing
- 8 I want to ask about this is -- it looks to me like what
- 9 you're saying is you got some people who build stuff and
- 10 you've got some people who run stuff, and you've got a
- 11 group of people to provide support to them, right?
- 12 Am I over-simplifying, or is that about right?
- 13 MR. BARRETT: Sorry. You are looking at slide 5 or
- 14 slide --
- MR. SHEPHERD: Yes, 5.
- 16 MR. BARRETT: Slide 5.
- 17 MR. SHEPHERD: Slide 6 is too complicated for me.
- 18 MR. BARRETT: Yes. I would think of it as we have
- 19 operating units and we have support units, and then we have
- 20 a senior executive organization over both of those
- 21 elements.
- MR. SHEPHERD: But your operating units are in turn
- 23 split up into people who build things and people who run
- 24 things, right?
- 25 You've got operating people, you've got project
- 26 people?
- 27 MR. BARRETT: That's right.
- 28 MR. SHEPHERD: Okay. Now, if you could just go to No.

- 1 9, this is the key risk summary. So you have to tell your
- 2 board of directors: Well, if we do this, what are the bad
- 3 things that could happen?
- 4 Could you just give us a brief description of which of
- 5 these risks actually happened, and how?
- 6 I don't need a long description, but just sort of
- 7 brief summaries on -- in each case.
- 8 MR. BARRETT: Give us a moment, please.
- 9 MR. SHEPHERD: Sure.
- 10 [Witness panel confers]
- MR. MILLAR: Mr. Shepherd, while they're conferring,
- 12 we're close to where we would be taking a lunch break. If
- 13 you're close to done, we could finish. If not, maybe we
- 14 could find an appropriate place to take a break.
- MR. SHEPHERD: I could probably be finished in 15 or
- 16 20 minutes and I would prefer to continue. But if you want
- 17 to break --
- 18 MR. SMITH: I would prefer that we push through, if
- 19 the reporter is okay.
- 20 MR. MILLAR: Okay. If you can do it in 15 minutes.
- 21 MR. SHEPHERD: It will also make me faster, which is
- 22 why Crawford agreed.
- 23 Mr. Barrett, do you want to do that by
- 24 undertaking? Would that be easier? I know it is a lot to
- 25 ask off the cuff.
- MR. BARRETT: We are almost there.
- MR. SHEPHERD: Oh, okay.
- MR. BARRETT: I am ready to take a shot.

- 1 MR. SHEPHERD: Okay.
- 2 MR. BARRETT: On sustained leadership alignment, there
- 3 has not been an issue; there has continued to be very good
- 4 alignment.
- 5 Staff engagement has been a risk; that has been
- 6 realized. Significant change in any organization can be
- 7 difficult for people, and we have seen some of that.
- 8 MR. SHEPHERD: Were there particular areas of the
- 9 organization where staff engagement was a particular
- 10 problem?
- 11 MR. BARRETT: Not that I am aware of. I would
- 12 characterize this as a more general issue.
- 13 Skills retention is a risk that we're dealing with.
- 14 There has been a large number of senior people who have
- 15 attrited from the organization, so this is an ongoing
- 16 challenge.
- 17 MR. SHEPHERD: That's something that is a challenge at
- 18 the executive level, but you are not losing your nuclear
- 19 operators, right?
- 20 MR. BARRETT: I would say it is a challenge throughout
- 21 the organization. You have people with specialized skills
- 22 who are able to retire and leave the organization, and some
- 23 of those are very well-trained and very experienced
- 24 operational people.
- MR. SHEPHERD: Okay?
- 26 MR. BARRETT: In terms of gains not as projected due
- 27 to the planning level, we have advanced our planning so
- 28 we're feeling better about this -- although I will observe

- 1 that people are -- there's a lot of people leaving the
- 2 organization and it is difficult to change the organization
- 3 fast enough to deal with that attrition. And that is a
- 4 challenge that we're dealing with.
- 5 MR. SHEPHERD: So this point, "attrition not as
- 6 projected," is actually -- that was about you won't get
- 7 enough attrition, but you are actually getting more, right?
- 8 MR. BARRETT: We are ahead of the plan as we sit here
- 9 today.
- 10 MR. SHEPHERD: Okay.
- 11 MR. BARRETT: So attrition not as projected is not an
- 12 issue.
- 13 Labour relations complexity, that continues to be a
- 14 risk that has to be managed.
- 15 Change capacity, again, it is a very significant
- 16 change in the organization. We're making great progress
- 17 there, but it continues to be an ongoing issue.
- 18 And in terms of stakeholder influence, I think the
- 19 first two are fine. The third one remains to be seen.
- 20 MR. SHEPHERD: The Canadian Nuclear Safety Commission,
- 21 that's CNSC, right?
- 22 MR. BARRETT: Correct.
- 23 MR. SHEPHERD: They're onside with what you're doing?
- 24 They're happy with what you're doing?
- 25 MR. BARRETT: As far as I know.
- 26 MR. SHEPHERD: They would have had to review any
- 27 changes you make in the organization, right?
- MR. BARRETT: In the nuclear organization.

- 1 MR. SHEPHERD: Yes. They haven't given you any
- 2 stoplights?
- 3 MR. BARRETT: As far as I know, they have not.
- 4 MR. SHEPHERD: And the shareholder is still onside
- 5 with this as well?
- 6 MR. BARRETT: Yes. They're concurring with the
- 7 business plan, and the business plans reflect the BT
- 8 initiative.
- 9 MR. SHEPHERD: Okay. I wonder if we could go to No.
- 10 11. These are challenges in the change component. They're
- 11 sort of a standard set of challenges, but I think I want to
- 12 ask some specific questions about it.
- 13 The first one relates to whether people think that
- 14 there's sufficient urgency, right? "Burning platform" is a
- 15 reference to urgency, right?
- 16 MR. BARRETT: That's correct.
- MR. SHEPHERD: And did you find that people have got
- 18 it, that they understand it is urgent? Or is there still
- 19 some resistance to that? It is like: Ah, yeah, okay. We
- 20 have to do this, but we don't really want to?
- 21 [Witness panel confers]
- MR. FITZSIMMONS: I just think generally in any change
- 23 -- and, I mean, there has been a lot written about this --
- 24 there are always people that are going to resist on every
- 25 level. They have seen things before, you know; they don't
- 26 believe messages.
- 27 So, I mean, that is a standard -- a standard
- 28 consideration when any organization is going through a

- 1 change.
- 2 MR. SHEPHERD: Well, normally when you do something
- 3 like this, particularly with a big organization, some
- 4 people have to leave, right? You have to show some people
- 5 the door? Have you had to do this?
- 6 MR. FITZSIMMONS: Well, I think, you know, as
- 7 indicated previously, we do have a lot of people that have
- 8 been leaving the organization. So for one reason or
- 9 another, people are leaving, chiefly as anticipated, with
- 10 attrition.
- 11 MR. SHEPHERD: But is some of it because they don't
- 12 like this change?
- 13 MR. FITZSIMMONS: Sure.
- MR. SHEPHERD: Okay. The second one is -- says there
- 15 is a question if the executive leadership team is really
- 16 aligned. And so if that was true, then is it now true
- 17 still? Or has that been resolved?
- 18 MR. BARRETT: That's been resolved.
- 19 MR. SHEPHERD: Okay. There are obviously challenges
- 20 to communicate. Was there a communication plan for this
- 21 roll-out?
- 22 MR. FITZSIMMONS: Yes, there was a communication plan
- 23 rolled out.
- MR. SHEPHERD: It is not on the record here, right?
- 25 MR. FITZSIMMONS: Not that I'm aware of.
- 26 MR. SHEPHERD: Okay. Is it a big or is it a
- 27 confidential-type of document? Is there any reason why we
- 28 couldn't see it?

CME Interrogatory #001

 Ref: 2013 Annual Report of the Office of the Auditor General of Ontario (December 10, 2013)

 Issue Number: 1.0 Issue: General

<u>Interrogatory</u>

 CME wishes to better understand the process undertaken by OPG following the release of the Annual Report of the Office of the Auditor General of Ontario on December 10, 2013. To this end:

 (a) Please provide all presentations, PowerPoint slides, briefing notes, or other written memoranda prepared by OPG for OPG's Board of Directors relating to that Report of the Auditor General; and

(b) Please provide all written questions, comments or directions provided by OPG's Board of Directors to OPG relating to that Report of the Auditor General.

Response

Attachment 1 summarizes OPG's ongoing actions in response to the Auditor General's Report.

The Auditor General's Report was issued months after OPG filed its Application and after the filing of OPG's Impact Statement.

Therefore, any attempt to link the potential outcomes from these responsive actions to changes in OPG's 2014 -2015 costs would be speculative at this point. Many of the actions are still being developed. Moreover, full implementation of these actions would require changes in OPG's collective agreements. Even for non-represented employees, notice may be required before the most significant changes could be made. Thus, OPG declines to produce the requested materials on grounds of relevance.

Dec. 10, 2013

OPG SUMMARY OF KEY ACTIONS 2013 AUDITOR GENERAL REPORT ON HUMAN RESOURCES POLICIES

The Auditor General's report covers a 10-year time period. In some cases the report highlights areas which OPG already had identified and has since addressed, or is currently addressing. In other areas it provides insights into issues the company will act upon and will report back openly and quickly.

In 2010 OPG initiated a business transformation to address culture and process change to ensure OPG meets the expectations and needs of the ratepayers. Since December 2012 the number of senior managers has gone down by six per cent, and since 2010, there's been a nine per cent drop in total base salary costs for management. We will also save an estimated \$1 billion over six years (2011-2016) by reducing the overall headcount, from ongoing operations, by 2,330 or 20 per cent of 2011 levels. The departure of 1,500 people since January 2011 has already saved \$275 million.

We are continuing that transformation, which was recognized by KPMG as the right way to address the needed change. The Ministry of Energy engaged KPMG to assess OPG's existing benchmark studies and to identify organization and structural opportunities for cost savings. KPMG's report validated OPG's business transformation initiative and its objectives.

"KPMG believes that OPG has employed a systematic and structured approach to developing a company-wide transformation plan. OPG has incorporated many leading practices for implementing a large business transformation such as assigning dedicated staff to implement the transformation, establishing a program management office, incorporating change management with a focus on cultural change and incorporating business transformation milestones into executive performance plans." KPMG Dec. 6, 2012.

The following is a summary of key actions OPG is taking (or has taken) to address the findings. A more detailed list of actions will be posted on our website later this week. In the coming weeks and months it will be updated to show our progress.

ACTIONS – PLANNED AND UNDERWAY	PLANNED COMPLETION DATE		
 Executive and Senior Management Staffing Levels Decrease senior management headcount in proportion to overall headcount reductions. (Reduced by 6% since Dec. 2012). 	2016		
New senior executives continue to receive lower	Ongoing
